ESTABLISHED 1846. NEWPORT, R. I., THURSDAY, FEBRUARY 6, 1913. PRICE TWO CENTS.

No Satisfaction--No Sale

We have that constantly before us when we try what we sell, some makers even call us fussy, but we think of you not of them, so we take no chances, because we want you to feel by continued experiences that you take no chances when you buy here.

CRAWFORD RANGES

Satisfy so well that Crawford users say, "No other for mine." Made well! There's one in use today in Newport that was built in 1867 and the owner cannot be induced to part with it even for an improved pattern.

Its economy of fuel is a fact long ago established and its perfect working under all sorts of conditions is a topic of conversation among housewives. If you're inexperienced ask a neighbor who has one—the lady next door in all probability. Or, look the others over then let us demonstrate.

IMPLICATES A DEPUTY POLICE COMMISSIONER.

Captain Walsh, Confessed Grafter, Suspended from Duty.

Charges Under Investigation by New York Authorities.

NEW YORK, Feb 6.—Police Captain Thomas Walsh, who confessed on his sick bed late last night that he was a grafter and shared graft with an inspector of police and another man higher up, was suspended from duty today by Rhinelander Waldo, commissioner of police. The commissioner took action as soon as he had confirmed from the district attorney's office the authenticity of Walsh's confession.

No legal action against the inspector had been taken this afternoon. Monday, if well enough, Walsh will testify before the grand jury, and soon after indictments are expected.

This afternoon Commissioner Waldo conferred with Mayor Gaynor concerning the latest revelations in his much investigated department, steadily under fire since the murder of the gambler Herman Rosenthal, last July.

A deputy police commissioner is implicated by Walsh's confession and his connection with the charges was today the subject of investigation by Commissioner Waldo and the district attorney. Shortly before the commissioner left headquarters to visit the mayor he summoned the official in question to his office, together with two members of the staff of the accused inspector.

Walsh's confession was made on his sick bed. It was forced in part by charges made by Policeman Eugene Fox, who pleaded guilty to graft collection last Monday and turned upon Walsh as the man next above him. Fearing that a heart weakness will which he had long been troubled might foreshadow his death, and wishing to purge his conscience, Captain Walsh is declared to have admitted that he took vice graft to the extent of perhaps $100,000 in a single police precinct, and shared half the amount with a police inspector above him.

In the presence of the district attorney and an assistant, whom he called to his Madison Avenue home last night, and with Mrs. Walsh and a friend also present, the police captain is declared to have corroborated in full the charges made by Fox. He said that every cent collected by Fox in the East One Hundred and Twenty-Sixth Street precinct had been shared with a police inspector. Out of every dollar that Fox brought to him, after deducting 10 per cent commission for the policeman, 50 cents had gone to his superior. Once a month Walsh would meet the inspector in the latter's office and pay him cash, he said.

He could not recall off-hand how much the amount paid over was, but he believed it to be between $25,000 and $30,000. He had no knowledge of the amount collected in the four other precincts of that inspection district, but he believed it to be quite as large.

The district attorney was with Walsh only three quarters of an hour, but left with the understanding that Walsh would see him again and would place in his own writing the full confession.

Although he regards himself as seriously ill, it is said that Walsh will be able to appear before the grand jury next Monday.

Police Commissioner Waldo said today that he could take no action against Walsh and the inspector named in his confession until he had officially confirmed Walsh's charges and admissions. To this end he sent a special report to confer with District Attorney Whitman today and if this representative is convinced that Walsh spoke the truth, the police commissioner said he would suspend him and the inspector forthwith.

To a representative of the commissioner, Walsh denied any connection with the graft receiving. A few hours later he made his statement to District Attorney Whitman which set the "system" agog.

Mr. Whitman announced today that Walsh had agreed to go before the grand jury Monday, repeat his confession and submit corroborative facts. "I shall then ask for the indictment of the inspector named," Mr. Whitman added.

Whether Walsh will receive immunity in view of his aid to the prosecutor has not been made clear.

On receiving a report from his representative sent to the district attorney's office Mr. Waldo suspended Walsh. It was expected that similar action would be taken later in the day in regard to the inspector in question.

CORRESPONDENCE SUBMITTED.

Federal Grand Jury Continues New England Railroad Inquiry.

NEW YORK, Feb. 6.—Investigation of the New England railroad situation was resumed today by the special federal grand jury which last week indicted President Mellen of the New York, New Haven & Hartford and President Chamberlin of the Grand Trunk for alleged violation of the criminal clause of the Sherman anti-trust law. Today correspondence between the officers of the New Haven and the Grand Trunk, relating to the proposed traffic agreement which formed the basis of the indictments, was submitted to the grand jury. Subpoenas for the production of these letters and messages were served last week upon Edson J. Chamberlin, as president of the Grand Trunk, and the documents were brought here from the office of the Grand Trunk by messenger, it is understood, and surrendered to the federal representatives.

The government's investigation is in charge of Assistant Attorney General William Rand, Jr. Mr. Rand will be chief counsel for the government at the trial of President Mellen and Chamberlin and of any others who may be indicted. Mellen and Chamberlin are out under $10,000 bail, ending their final pleading to the indictments. They have entered tentative pleas of not guilty, but have until February 10 to change their pleas or demur or enter pleas of abatement.

BARROWS, SWEENEY AND DORAN ENDORSED.

Pawtucket Men Still Claiming the Election of Blodgett.

Proposed Re-Districting and 54-Hour Week for Women and Children.

[Special despatch to The News.]

PROVIDENCE, R. I., Feb. 6.—This morning the executive committee of the Republican state central committee formally endorsed Chester W. Barrows and John W. Sweeney, Republicans, and John Doran, Democrat, in the order named, for judgeships in the superior court. Mr. Gill, the Pawtucket member of the committee, voted against the resolution. The Pawtucket delegation in the legislature say they are not alarmed by the action of this committee and that they will elect City Solicitor Blodgett, but they are not saying against which one of the regular candidates they will run him. To further complicate matters, the Progressives are out with a candidate, William W. Moss of the firm of Gardner, Pirce & Thornley, whom they will nominate against Sweeney.

The senate was quite non-partisan today, a Democrat presiding, on invitation of the president, for the first time except one since Governor Higgins presided over that body. The body adjourned on the motion of a Progressive.

Acts were introduced in both houses to prevent women and children from being employed in department and other mercantile stores more than 54 hours a week.

A re-districting of the state was proposed, whereby there would be 39 senatorial districts.

In the senate Governor Pothier presented the second annual report of the Warwick police commission, Senator Gorton the forty-third annual report of the State Board of Pharmacy and Senator Quarmby the annual report of the license commission of Lincoln.

President Wilbour, who was occupying the chair in the absence of Lieutenant Governor Burchard, announced for the lieutenant governor the appointment of Senators Munroe of Providence, Arnold of Westerly and Clarke of Scituate as the committee from the senate to attend the funeral of Representative Potter of Scituate Friday.

President Wilbour called Senator Munroe of Providence to the chair, and the members proceeded to kill time in congratulating the senator, in jest and seriousness, upon the elevation of a Democrat to such an honor in that body.

Senator Wilbour, after falling into the trend of the other members and saying that coming events cast their shadows before, though he did not believe this would be the case this time, introduced an amendment to the factory inspection act, which would restrict the hours of labor of women and children to 54 a week in all mercantile establishments. Judiciary committee.

Senator Hartford of Warwick moved to adjourn and the members so voted.

In the house Mr. Hammill of Bristol introduced a 54-hour amendment. Committee on labor legislation.

Mr. Eaton of Providence offered a resolution appropriating $15,000 for the extermination of the gypsy moth. Finance committee.

Mr. Lucier of Woonsocket offered a resolution appropriating $3,000 for the maintenance of the state battleship Aileen. Finance committee.

Mr. Sumner of Providence introduced an act authorizing the St. Joseph's Hospital to tunnel Peace street, Providence, to connect parts of the institution. Judiciary committee.

Two resolutions to settle claims against the state were referred to the committee on accounts and claims, and from the calendar the amendment to the Bristol caucus law was taken and passed.

NORTH PROVIDENCE WARNED.

Governor Pothier Will Act if Prize Fights Are Not Regulated.

[Special despatch to The News.]

PROVIDENCE, Feb. 6.—Governor Pothier sent a sharp letter to President Hurdis of the North Providence town council today, informing him that things must be different within the town borders or he would send the sheriff there, with orders to make wholesale arrests and sufficient force to assure that the arrests are made. The particular cause for this notice is the prize fights which take place in Marieville, which he governor says are patronized by thugs, pickpockets and crooks from all over New England. He demands better police protection and a more decent conduct of these affairs forthwith, or he will take action, much as he dislikes to interfere with a community's running itself.

SCARLET FEVER EPIDEMIC.

Four Schools in Edgewood and Pawtuxet Districts Closed.

CRANSTON, Feb. 6.—Four schools in the Edgewood and Pawtuxet districts of this city were closed today because of a scarlet fever epidemic. Seventeen homes are quarantined.

BY A VOTE OF 36 TO 34.

Republicans Succeed in Forcing Senate to Consider Appointments.

WASHINGTON, Feb. 6.—Republican Senators caucused again today to determine on a plan of action to meet the Democratic filibuster against confirmation of more than 1,500 of President Taft's appointments. Many were in favor of abandoning any further attempt to put the appointments through. A continuation of the fight without discrimination as to classes of nominations was decided upon, however, by the majority and later the Republicans succeeded, 36 to 34, in forcing the Senate to close its doors to consider appointments.

BEACH AND HIS WIFE TELL THE SAME STORY.

Maintain Their Claim That She Was Attacked by a Negro.

Husband Denies Attempt to Lay the Crime on Another.

AIKEN, S. C., Feb. 6.—Frederick O. Beach today related to a jury his story of the assault upon his wife, with which he is charged, and then Mrs. Beach took the witness stand and corroborated his story.

Beach did not depart materially from the tale which he has told since the attack—that his wife was struck by a negro when she went outside her cottage with her dogs. He maintained his accustomed calm through the severe cross-examination to which he was subjected by Prosecutor Gunter. He contradicted himself once or twice, but speedily corrected his statements when reminded and apologized for his faulty memory.

Only once during the entire examination did he show any signs of disturbance. That was when the prosecutor asked him if he had not asked his wife to "lay the crime on Pearl Hampton's brother, when he thought they were alone in the mayor's office." "That is absolutely false," exclaimed Beach, rising from his seat.

Mrs. Beach, who followed her husband on the stand, corroborated his narrative. She said the negro attacked her from behind, by laying his hands on her shoulders and forcing her to her knees. She said she was too terrified to scream till after the negro struck her on the side of the head with a heavy stick. After she screamed she heard the door slam and saw the negro run as her husband came to help her.

The defense began presentation of testimony yesterday, introducing experts to controvert evidence of the state, tending to show that one of the blades of Beach's jeweled penknife, found on the lawn after the assault, showed traces of blood corpuscles.

Beach, upon taking the stand, said he is 57 years old, a property owner at Aiken, and has been spending the winters here for 17 years.

"When did you marry Mrs. Beach?" asked Congressman Byrnes, of his counsel.

"November 29, 1899."

"Have you any children?"

"Yes; two."

"Where were you living in February, 1912?"

"I had rented my house on Hood's lane to Mrs. Lyons and my wife and I were living in the cottage adjoining."

"Did you have any guests on February 26?"

"Yes, Miss Hollins. She arrived the day before."

"Did you have any other guests for supper that night?"

"No."

"What did you do after supper?"

"The three of us went into the sitting room, fronting on Hood's lane. Miss Hollins retired about 10 minutes after 9. We continued reading. Suddenly we heard a scream. My wife exclaimed: 'My, what's that?' I told her I thought it was some negroes quarreling. Then we heard another scream, from the direction of the Lyons place.

"Two or three minutes later my wife said she thought she would go to bed, but that she would put the dogs out first. She went out with the dogs, closing the sitting room door behind her. A minute later I heard her scream. I ran out the front door and saw my wife leaning against the post at the corner of the porch.

"I started for her and had gotten about a quarter of the way on the path, when a negro darted by me across the bushes and out the front gate. I could have intercepted him, but instead I rushed to the assistance of my wife. My thought, when I heard her scream, was that she had found dead or dying the woman we had heard screaming a few minutes before.

"When I reached my wife she exclaimed: 'He has done something dreadful to me.' I carried her to the porch, opened the screen door and laid her own inside. Then I saw the cut in her throat, and realized for the first time what had happened.

"I rushed up stairs, obtained my gun and went out into Hood's lane in search of the assailant. I returned in a short time and found the door had slammed to. I knocked vigorously and Miss Hollins came to the door and asked who was there before opening it. I replied: 'It's me, Beach. Let me in.'"

Beach said he left the house soon again, to telephone to Dr. Hall, his physician. He met the two Wyman, doctors, who lived across the street, coming in. He telephoned Dr. Hall from the Aiken Club and then returned to his wife's side.

When Dr. Hall arrived and began sewing up the wound in her throat he said he held her hand, because "it was very painful and she held on to me." He said he did not remain in her room during the night, because Miss Hollins was there with her, but that Mrs. Beach sent for him several times during the night.

The witness then told of his efforts to bring his wife's assailant to justice. He said he asked that night what was being done and was told by his friend, Ed. Smith, "not to worry, as he would be caught before morning." He said he telegraphed for a detective the next day.

A day or two later, Beach said, he employed Colonel Henderson to represent him in the investigation. The attorney told Beach then that some people suspected him of cutting his wife. The detective he employed worked for two weeks on the case without success. Then Detective Baughn, employed by the city, took it up.

Beach testified next to giving his knife to Baughn in the presence of Mayor Gyles.

"How many blades did the knife have when you gave it to the detective?" asked his counsel.

"It had two; there were no broken blades."

Beach said he had several conferences with the authorities in regard to the assault, and when he was ready

MESSAGE SENT TO FOSS.

Ceremonies Connected With Selection of Massachusetts Site Described.

BOSTON, Feb. 5.—The ceremonies in connection with the selection of the site of the Massachusetts building at San Francisco are described in a message received by Governor Foss today from Charles S. Moore, president of the Panama-Pacific International Exposition. Mr. Moore said:

"I have the honor to inform your excellency that the ceremonies of the selection of the site for the Massachusetts building at the Panama-Pacific Exposition took place today (yesterday) in the presence of an enormous crowd among which were a large number of members of the Massachusetts Society of San Francisco. Ceremonies were preceded by a luncheon tendered by state, city and exposition officials, representatives of the army and navy, representative of the Massachusetts society and many other prominent citizens. The luncheon was followed by a review of the troops at the Presidio, after which the ceremonies took place on the site selected. The deed to the site was presented to Colonel Corr, as chairman of the commission, who then planted the American flag on the site and took possession in the name of Massachusetts. The Massachusetts state flag was hoisted on the site and greeted with loud applause, after which the assembled crowd gave hearty cheers for the state of Massachusetts, for yourself and for the Massachusetts commission.

"Your commissioners have endeared themselves to all of us and we beg to express our appreciation of your appointment of such worthy representatives of your great state. We are sure they fully realize the magnitude of this national enterprise and what it means to American sentiment and patriotism generally, and to the material interests of Massachusetts in particular."

TO OPEN UP RESOURCES.

Alaskan Railway Commission Says More Than One Road is Needed.

WASHINGTON, Feb. 5.—The Alaskan railway commission has reported to President Taft that more than one extensive railway will be needed to properly open up Alaska's resources.

The report which the President will send to Congress, with recommendations, says there are several available railroad routes from the coast into the interior of Alaska. No definite recommendations are made as to the choice of routes. The reports declare that the route up the Susitna valley, passing near the Matanuska coal fields, on up through good agricultural land to the Nenana lignite fields and on to Fairbanks, in Central Alaska, with its gold, silver and other wealth, could not develop the resources of the Copper river valley.

The route from Cordova, in the famous Controller Bay region, up the Copper and Tanana river basins to Fairbanks, would be near the Behring coal fields, which could be opened up by the building of a branch line, then would go north through rich copper country and on to Central Alaska.

Another possible route would run from near Juneau, in the southern part of the peninsula, cross Canadian territory north of the St. Elias mountain range and thence up the Tanana river valley to Fairbanks.

DOMINICAN REVENUES CLIMB.

National Debt Being Reduced With Gratifying Rapidity.

WASHINGTON, Feb. 5.—Dominican revenues continue to climb and reductions of the national debt occur with gratifying rapidity, according to a report from Receiver General Pulliam for the month of December last. The gross collections for that month were $491,720 or $26,247 in excess of those of December 1911, while the amount of money applied to the redemption of government bonds during the past calendar year exceeded by $85,680 the sum applied in 1911.

KILLED BY A FALL.

Body of Aviator Boland Arrives on the Vasari from Trinidad.

NEW YORK, Feb. 5.—Steamer Vasari arriving today from South American ports brought the body of Frank Boland, the American aviator, who was killed by the falling of his biplane at Savannah, Trinidad January 23 last. Boland's parents reside in New Jersey.

LAST DEPOSIT MADE IN 1871.

Book Presented at Windham Savings Bank for Interest of 19 Years.

DANIELSON, Conn., Feb. 5.—Officials of the Windham County Savings Bank were surprised yesterday when a bank book that has not been presented in 19 years was brought into the bank by Mrs. Edward Fitch of Norwich. The last deposit was made in 1871 and amounted to $800. The book had been presented to have the interest computed up to 19 years ago, since which time nothing has been heard of the account. The interest up to today amounts to $2,360. The book was in the name of Edward Fitch of Norwich, who died some years ago.

PLANS FOR MAXIMUM RATE.

Bills Drafted by Sulzer on Stock Exchange Reforms Introduced.

ALBANY, N. Y., Feb. 5.—Seven bills drafted by Governor Sulzer and embodying his recommendations on Stock Exchange reforms, as outlined in his message to the legislature, were introduced in the senate today. While provision is made for fixing a maximum rate of interest on call loans, the question of incorporating the New York Stock Exchange is still open. A committee representing the Exchange told the governor last week that if these two propositions were enacted into law "disastrous results" would follow.

EXTRA DIVIDENDS DECLARED.

American Tobacco Stockholders to Receive More Than $6,000,000.

NEW YORK, Feb. 5.—More than $6,000,000 will be distributed among holders of the common stock of the American Tobacco Company from a 15 per cent extra dividend declared today. Like the $40,000,000 "melon" divided last week by the Standard Oil Company of New Jersey, this extra dividend results from the Supreme Court decree dissolving the old corporation and represents proceeds of the sale of certain Treasury securities in accordance with the decree of dissolution. The declaration makes a total of $14,000,000 in extra dividends received by the stockholders since the old American Tobacco Company was dissolved. The company declared also today a quarterly dividend of 5 per cent, which places the common stock on a 20 per cent annual basis, an increase of 2½ per cent quarterly.

PLANNING AN ICEBERG PATROL.

The British government has entered into negotiations with the principal North Atlantic steamship lines with a view to equipping a vessel with a powerful wireless installation to patrol the ice regions and notify the wireless stations on the American coast and liners plying in the Atlantic of the location of icebergs and of similar dangers. The cost of the service as contemplated is to be shared by the government and the companies.

MURDOCK TO RETIRE.

Rear Admiral Reaches the Statuory Age February 13.

Orders were issued by the Navy Department Wednesday, placing Rear Admiral Joseph B. Murdock on the retired list next Thursday, February 13, when he will have reached the statutory age, 62 years. Admiral Murdock is well known in Newport, having been for a number of years a member of the staff of the Naval War College, in command of battleship Rhode Island and of a division of the Atlantic fleet. He is a member of the Rhode Island Society of the Sons of the Revolution, having been for several years historian of that organization. While at the Naval War College he was interested in other local bodies, including the Natural History Society, at whose meetings he was a frequent speaker.

Admiral Murdock was appointed to the Naval Academy from Massachusetts in 1866 and has thus been nearly 47 years in the navy. He has served in various capacities on the Nipsic, Monongahela, Lancaster, Constitution, Dolphin, Pensacola, Omaha, Panther, Minneapolis, New York, Denver and Rhode Island; at the Portsmouth and New York navy yards, on duty at the Torpedo Station and Naval War College, and as a member of the examining and retiring board and the general board. During the Spanish American war, he served on the Panther, later commanded the Denver and Rhode Island, was a division commander of the Atlantic fleet, commandant of the New York navy yard, and commander-in-chief of the Asiatic fleet. He was promoted to captain January 22, 1900, and to rear admiral in February, 1909. His last sea duty was as commander-in-chief of the Asiatic fleet, in which capacity he did conspicuous diplomatic service in China and Japan. Since relinquishing that command a few months ago he has been on duty with the general board at Washington.

A REGAL HEAD

How often do we hear or see this expression used in describing a beautiful woman!

Denude that head of its hair and instead of a queenly, royal bearing we have a fright. The hair makes all the difference. To have that glorious abundance of radiant hair which always crowns "a regal head," one should use Newbro's Herpicide.

Herpicide represents the last word in scientific hair culture. It destroys the dandruff germ, checks falling hair and corrects generally, diseases of the hair and scalp.

The positive results and its delicate but refreshing odor recommends Newbro's Herpicide to ladies of refinement everywhere.

Send 10c in postage for sample bottle of Herpicide and booklet to The Herpicide Co., Dept. R., Detroit, Mich.

One dollar size bottle sold and guaranteed by all druggists.

Applications made by the best barber and hair dressers.

F. L. Powell Pharmacy, Special Agt.

The One Ideal Dentifrice.

It is perhaps not generally known that eighty per cent. of our adult population are affected more or less with Riggs Disease or receding gums.

DR. FORHAN'S DENTAL CREAM is a medium through which one may successfully treat all inflamed conditions of the gums. It contains the wonderful germicidal-medicinal qualities of FORHAN'S ASTRINGENT—besides, it makes an ideal dentifrice. It thoroughly purifies the mouth, lightens the teeth, heals and restores the normal pink hue of the gums and gives a superb lustre to the teeth.

DR. FORHAN'S DENTAL CREAM is a thick, creamy substance, pleasing to the taste. In collapsible tubes, about twice the size of ordinary tooth-paste tubes. Retails at 25 cents, with positive assurance of entire satisfaction or your money will be refunded. Sold by Frank L. Powell Pharmacy.

ON KNOCKERS.
Many years ago a man very learned said "Ye that answer ye knocker will always be ready to 1st opportunity in. "Opportunity, life friends knock but once on a man's door. You should be ready to receive them.
THE ELECTRIC DOOR BELL has put the knockers in the garret. But the door bell won't work if it is not "fed."
THE COLUMBIA BATTERY IS the proper food. Have your bell always ready by getting the Columbia battery today.

THE HARDWARE MAN.

Advice to the Heart Hungry
The Unreasonable Husband

Dear Editor:--
My husband, once so kind and loving, seems to be provoked at me. He insists upon having at least one hot dinner a week and complains of being tired of cold ham, my favorite dish. Club duties absolutely prevent me from preparing his meals as I was in the habit of doing before becoming an active member in eighteen social organizations. How shall I deal with such an unreasonable man?
(Mrs.) Hattie McGuy

NEW YORK LETTER.

Fabulous Price Paid for Valuable Portion of the Earth's Surface.

Time Clocks for Judges—New Kind of Strike—Art Gallery for Fakes—Divorce Population.

[Correspondence of the News.]

NEW YORK, Feb. 5.—A new real estate price record has been established here by the purchase of a lot 25 by 73 feet for enough money to cover the ground with two layers of dollar bills, a layer of fives, a layer of tens, a layer of twenties, and a fifth coating of hundred-dollar notes. The land was bought to build the new 32-story home of a giant Wall Street banking institution. It has also been learned that J. P. Morgan, located in an antiquated looking building in Wall Street, almost directly across from the Stock Exchange, has bought an adjoining lot at what is said to be an equally fabulous rate. The exact amount is not known, but the land is said to be the highest priced portion of the earth's surface, not excepting any real estate in any city, nor the surface of any gold mining claim.

Just how local values compare with those in London, for instance, is shown by the fact that a record-making sale in the English city was recently made at a figure which would bring the price of a square foot to about $127, as compared to an actual sale here at the rate of $658 a square foot.

The significance of these changes in ownership seems to be that Wall Street, which has suddenly taken to reforming its banking, its brokerage transactions and its members' habits and reputations, has now set out to reform its physical appearance as well. The street at present is anything but the canyon of skyscrapers which, outside New York, it is supposed to be. Only two buildings in the whole street go above 18 stories, and the average height is about six stories. Also the structures are for the most part old, and while they have a great deal of dignity and even luxury in their fittings and furnishings, their exteriors suggest a banking and business system of Andrew Jackson's day, rather than those of the present.

While it has not yet been determined just how much work a judge is expected to do to earn his salary, plans are now under way here to find out just how much work they do accomplish, and for the first time in the history of the courts the members of the judiciary are soon to be confronted with something very like a time clock. While matters have not yet come to such a point that judges will be expected to punch such a clock like any employe, arrangements have been made by which tabs will be kept on their work in a manner just as strict. The clerks of the trial parts of the supreme court have been furnished with special charts on which they will keep a record of all the work performed by each judge. Lawyers have openly charged that certain judges 'loafed' and that they could hear many more cases if they worked as much as the judges in other counties. The New York judges, however, have always had defenders, who contended that more work is performed by individual judges in New York county than anywhere else in the state.

While the keeping of the record is done through an order made by the supreme court judges themselves, it is done at the suggestion of the state bar association which passed a resolution to that effect at its last session. Among other things the record will show the number of cases heard by each judge, the successful litigant, the number of disagreements, defaults, dismissals and discontinuances, amount of the verdict and the number of opinions written by the judge.

For the first time in the East a strike of newspaper writers is on. The papers affected are the "Yiddish" dailies of New York and, though they are printed in a language that is foreign to most Americans, their circulation reaches to nearly half a million copies. For years, attempts have been made to unionize the newspaper profession, and in some of the Western cities they have been successful, but this it is believed is the first time that such a thing has been done in this part of the country, or on so large a scale.

The new union which is known as "Newspaper Writers' Union No. 1," was organized and chartered by the International Typographical Union, one of the largest and most powerful of craft unions. It grew from an organization formed by Horace Greeley, and has more of the features of the old European "guilds" than any other active labor.

A curious twist of its history comes out in the fact that the hundred or so Jewish scribes who walked out of the offices recently are organized into a "chapel" of the union, a name that is used because the first English printing press was set up in a ruined chapel of the Catholic Church in the fifteenth century.

The demands of the striking reporters and writers is for shorter hours and more pay, for recognition of their organization and for the "closed shop." If the movement is successful, an attempt will be made to call out the staffs of the German dailies, and later to organize the great English-written papers themselves.

New York, it is announced, is shortly to have what will probably be the most remarkable art gallery in existence. This does not mean that another multi-millionaire is planning to bring back a few truckloads of "old masters" from Europe. Indeed the works exhibited will have little or no value since the gallery, which is to be operated by the Metropolitan Museum, will contain only art fakes. There is a serious purpose in the planning of this gallery. Since it proposes as far as possible to educate the picture-buying public to the wiles of art dealers who annually unload at fabulous prices on an unsuspecting public clever counterfeits of the work of famous painters. The faked pictures which will appear in the gallery to be used as the basis of instruction in the art of picking out a genuine old master, as compared to a counterfeit, are themselves good enough to fool the average buyer, and it is expected that through them real results can be accomplished in educating and protecting art lovers.

While the fake gallery is certain to prove popular here, it is not likely to be enthusiastically regarded by those persons in this country and abroad who gain a fat living by manufacturing 'old masters' to be sold to unsuspecting purchasers.

Seventy thousand children are made orphans in one year by our divorce laws" is the startling expression of facts which were brought out here by Rev. Francis H. Moody in an address upon American divorce conditions. In the last 40 years, according to the clergyman's carefully prepared statistics, no less than 3,700,000 men and women have been legally divorced, and the persons directly connected with these cases number more than 5,000,000, or almost exactly the same as the present population of New York city. Most of the children who have been "orphaned" by losing one parent through the courts have been less than ten years old, and Mr. Moody points out the moral danger to the youngsters who grow up thus in "half a home." Half of all the divorces in the country, he finds, have been between couples living in Middle Western states. In Illinois alone there have been 120,000 divorces since 1862, a number which is larger than that in any other state.

Longacre.

NEW YORK PIER CHANGES.

Secretary Stimson Approves New Locations in Hudson River.

Secretary of War Stimson has approved changes in the pier "headlines on both sides of the Hudson river at New York and Hoboken, which he believes finally will insure the Hudson river from further encroachment and afford a basis for the permanent adjustment of the long-standing controversy between the local and national governments over the location of the piers.

After correspondence between himself and Mayor Gaynor, which the Secretary regards as sufficiently binding upon the city and state of New York, he has re-located the pier lines so as to provide for the longest piers in what are now the broadest reaches of the river, taking the precaution to embody the agreement in the form of a memorandum to be filed in the War Department.

By its terms, the Secretary approved of the report of the special board to permit the straightening of the pier head-line on the New York side between the Battery and the foot of Gansevort street, permitting the construction of piers over 1,000 feet long therein and also straightening the pier head-lines on the New Jersey side of the river between the Morris Canal basin and the foot of Fifth street in Hoboken. The latter will permit the necessary accommodations for the Hamburg-American line and the North German-Lloyd line without narrowing the river gorge, while the former extension will accommodate the International Mercantile Marine Company after their long piers in the Chelsea district have been shortened.

MOTOR FIRE APPARATUS.

New York Department Finds Increased Efficiency and Economy.

Fire Commissioner Joseph Johnson of New York in an article in the New York Sun says: "Motor apparatus in the fire department has passed the experimental stage. It has demonstrated its superiority over the horse-drawn apparatus, both from the standpoint of economy and effectiveness. Under heavy service conditions the several types of motor-propelled fire-fighting machines which I have adopted as standards have stood the test, and the motorization of the department is now progressing rapidly."

He says there are 78 motor vehicles in the service now and that at the end of the year there should be at least 156. Contracts for delivery this year call for 21 combination chemical and hose, 3 high-pressure hose wagons, 28 second-size steam fire engines propelled by tractors and 25 motor hook and ladder trucks. The motor-drawn steam fire engine has been chosen over the gasoline after a test of the two types under similar conditions in that city. The commissioner says he "does not mean to reflect upon the gasoline pumping engine," but it has not been chosen for New York, as the conditions there are peculiar, with the very tall engines. He is disposed to stick to the pump, which has passed the experimental stage for such heavy work.

Further he says: "I am confident that we have made no mistake in purchasing the motor apparatus now in service, nor in drawing the specifications for the fire-fighting machines now under contract for this year. As a matter of economy," he concludes, "the motor-propelled apparatus has demonstrated its advantage over that of horse-drawn type. There are fire companies in the outskirts which respond to less than 20 fires a year. Of course the horses have to be fed, whether there is a fire or not. The motor apparatus does not have to be fed when there is no fire."

In the way of suggestion it might be recalled that in his approval of automobile fire apparatus Commissioner Johnson speaks as one at the head of a fire department which has not only the conditions of the big city to meet, but that of small cities and suburban districts. He has found the automobile an improvement over the horse-drawn under all three conditions. It is a big undertaking to change from horse to motor in a department of 600 pieces, but that is what New York is doing, because increased efficiency and economy are assured.

SIGSBEE TUB REJECTED.

St. Joseph Council Refuses Money for Cartage.

The St. Joseph, Mo., city council has refused to appropriate money for carrying Admiral Sigsbee's bath-tub, relic of battleship Maine, from Urbana, Ohio, to St. Joseph. Several weeks ago the Navy Department at Washington announced that the bath-tub, which had been rejected by Urbana, would be presented to the first city making application. Mayor Pfeiffer immediately asked that the tub be awarded to St. Joseph, and was advised that St. Joseph would receive it. When the mayor asked the council to provide funds for the cartage of the bath-tub it refused, on grounds that his action already had brought the city into undesirable notoriety.

WILL CAPSIZE AEROPLANE.

Apparatus May Have Bearing on New Engines of War.

An apparatus has been devised which, if all claimed for it is substantiated, may have an important bearing on the aeroplane as an engine of war. General Hirschauer of the French flying corps has received a communication from the inventor, Dr. Cousins, a scientist, who has recently been experimenting on this device with Jules Vedrines, aviator. He informed General Hirschauer that the apparatus, which is small and simple, and can be carried in a soldier's knapsack, by provoking disturbances of the air will cause any type of aeroplane to capsize, even if it has ascended to a height of more than 9,000 feet.

For the Matinee.

The afternoon costume may be made a bit more dressy by adding sleeve frills and a neck frill of black net, outlined with black velvet. Frills of this sort have been added to this blouse of old blue crepe de chine. The blue blouse accompanies a coat and skirt suit of old blue.

BLAME THE GROUND HOG.

[Washington Star.]

When it's February weather
An' the skies are dumply gray
We can always get together
An' be happy anyway;
Though the roadways are unpleasant
And the streets are much the same
We will simply say at present
"Let the ground hog take the blame!"

He's the beast of burden gentle,
Stronger than a mule or ox;
He has patience monumental
When the anvil chorus knocks;
When your fondest hopes are balking
In frivolity or fame
Of the climate keep on talking,
"Let the ground hog take the blame!"

FANCIES.

Many a man has put his money on a sure thing, only to regret that he didn't take a chance.—[Philadelphia Record.

Mrs. Beek—What party does your husband belong to?

Mrs. Peek—I'm the party.—[Boston Transcript.

Professor Wiser—What effect does the moon have upon the tide?

Sweet Co-ed—None; it affects only the untied.—[Judge,

"Wombat says it is hard to fight a woman's pocket."

"He ought to know. He's married for money."—[Washington Herald.

The Polite Hackman—G'wan! shake yersilf, ye lea-hitten ould corpse! (confidentially to his passenger) It wuz the horse I wuz spakin' to, mum.—[Life.

"I didn't know you smoked a pipe!"

"What are you going to do when the doctor says you can have only one cigar a day?"—[Washington Star.

Knicker—Why did Jones give his wife a clock that strikes the quarters?

Bocker—It keeps her so confused she doesn't know what time he comes home.—[Puck.

"A burned child dreads the fire, you know."

"Yes. In that respect a burned child is so different from a man who buys on margins."—[Chicago Record-Herald.

Griggs—Say, did your wife ever find any letters in your pocket and raise a row?

Briggs—She's found X's and V's there, but she always kept quiet about it.—[Boston Transcript.

"Do you consider literature an art or a science?" asked the very anxious girl.

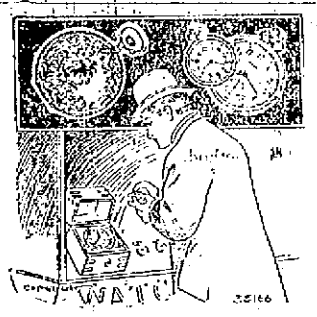

"Neither," replied Mr. Penwiggle. "It's a great big gamble in which anybody is permitted to write his own lottery ticket."—[Boston Transcript.

METROPOLITAN MUSEUM RICHEST IN THE WORLD.

The fortune of James Bartlett Hammond, estimated value $2,000,000, which was left without restriction to the Metropolitan Museum of Art, New York, raises the total of "big bequests" to the museum within recent years to more than $12,000,000.

"The Metropolitan is the richest museum in the world," says Mr. Davidsen, the director's assistant. "Our available purchasing fund is between $250,000 and $300,000. For this reason the great museums abroad are not progressing as fast as the Metropolitan."

AGRICULTURAL LIME.
BERKSHIRE Air-Slaked Lime.
A pure hand screened lime, free from all grit and unslaked particles,
A lime suitable for the building trade is certainly none too good for the soil. BERKSHIRE air-slaked lime is made by the manufacturers of Berkshire wood burned lime. Since it is pure lime and nothing else, it will go further than any so called "agricultural" lime that sells for less money. For impure lime is cheap, and "cheap" lime is usually impure. Investigate BERKSHIRE.

THE NEWS IN PROVIDENCE.

The Daily News is on sale in Providence the evening of publication at Union Station.

MARKING PACKAGE GOODS.

There is a bill before the legislature which requires that all packages for sale shall be plainly marked with the weight or amount of the contents, so that customers may know just how much they are buying and not be deceived into thinking they are purchasing more than they are really receiving. This should be adopted in the interest of fairness and honesty. It may not be the intention of dealers to deceive in selling goods in packages the amount or weight of which is not indicated upon them, but it is nevertheless true that in purchasing articles in that form it is impossible for a customer to know how much he is buying, and therefore whether the goods are cheap or costly. This is not as it should be.

The package form of selling is popular at present with both customers and dealers. The former like it because of its cleanliness and convenience, and the latter for its attractiveness as well as those qualities which make it appeal to the buyer. Because both parties to the sale approve this form of preparation they are both in a measure responsible for its widespread use, and if there has been any injustice to the purchaser that fact is chargeable partly to himself as well as to the dealer. Such injustice, if there has been any, has been due to the failure to mark packages so that the purchaser could know how much he was buying, and that would be remedied by the passage of the bill now before the legislature. This use of packages in selling is too convenient to be stopped and it is not necessary to do that in order to correct the conditions which make it objectionable. If goods are marked in the way contemplated by this bill, the purchaser will have a square deal and there will be no objection to this method of selling.

THE INCOME TAX.

We are now in for a national income tax and the people of Wisconsin will have the privilege of paying both national and state, that state already taxing all incomes of single persons in excess of $800 and of families in excess of $1,200. The income tax may be substituted for other forms, such as customs, but the probabilities are that with all their professions of economy the Democrats will increase the national revenue.

In theory the arguments for the income tax are strong, but there are some objections in theory and many in practice. England and Germany have such taxes, because the cost of armaments obliges the governments to secure all the revenue they can. The revenue tax has never been urged here on the ground that the revenue was needed, but because it would hit the rich people. The French government is in desperate need of funds and for years has been trying to have the income tax adopted, partly as a substitute for existing taxes of an inquisitive and onerous character and partly to give more revenue.

The Democrats have long favored the income tax, partly because it would afford means of reducing the import duties, and partly because they have always professed to be the party of "the people" as against the unduly prosperous. The sentiment for this tax has undoubtedly been growing among Republicans, under the influence of the agitation of recent years against wealth. Yet when the Republican Congress proposed the income tax amendment it is very doubtful if it was expected that it would be ratified. However, there was a loud demand for heavier taxation of the rich, and hot denunciation of the Payne-Aldrich tariff, and it looked as though it would be a fine piece of politics to allay discussion and criticism by providing for an income tax on corporations and referring to the state legislatures a constitutional amendment removing the obstacle in the way of taxing individual incomes.

It was probably supposed that few Republican states would ratify the amendment and therefore it would not be incorporated in the constitution, but the prospect of squeezing more taxes out of the rich looked good to the Republicans also, and many states controlled by that party have ratified the amendment. How the "rich" are to be made to bear the burdens of taxation may be learned from the Wisconsin law, which levies income taxes on workmen receiving about $16 a week.

The theoretical argument for a tax on income rather than on consumption is perfect, but incomes must come from labor or from property. The advocates of such taxes for the most part profess eagerness to assess wealth and relieve labor, so that they ought not to be anxious to tax wages and salaries, which are the earnings of labor. As for the earnings of property, the property is already taxed, and the rich who have a great deal pay very much more taxes than the people who have little or none. This would seem to meet all the demands of justice—that those who have the most should pay the most.

It is objected that a great deal of personal property escapes taxation and most of it is in the possession of the rich. That is true, but if the property can be concealed it will be even easier to conceal the revenue from the property. Of course taxes on shares and bonds can be easily collected from the corporations before interest and dividends are paid, but that is only a part of the personal property. Firms the corporations before interest and their employes, stopping the amounts out of their wages, but that does not look much like the taxation of the plutocrats which the champions of the income tax have been promising us.

Back of the income tax lies the purpose of making the rates of taxation, and not merely the amounts, heavier in the case of the rich. Graduated inheritance taxes are already collected in several states, and while Roosevelt was President he proposed, in a speech, graduated income taxes rising to 100 per cent in the case of very great incomes. During the Civil war we had an income tax of three per cent on the smaller, and five, and a part of the time ten, per cent on the larger incomes, although 30 years later the Supreme Court held an income tax to be unconstitutional. The practice of making the rates higher on the larger amounts is equitable in theory but open to grave abuses in practice, and no income tax can be collected without an amount of espionage and invasion of privacy to which we have not submitted except in the emergency of a great war, and which still keeps the French people hostile to this method of raising a revenue.

FUSSING AND FIDGETING.

There are many people who are constantly worrying and fretting over trifles, making those around them nervous and irritable because they will not let well enough alone and try to overlook things which in themselves are really of no consequence, but are magnified into insurmountable barriers by their way of meeting them. They fidget over every member of the family in their own homes and often extend to their neighbors and friends the same unwelcome attention. All the time they think they are fulfilling their mission in life, by looking after the trifling things which others would ignore. If one shows a slight indication of illness he is piled with remedies and fussed over until life seems a burden to him. If a journey is to be taken the family must be ready and off to beat or train long before the time to go, and then there is worry for fear the conveyance will be late. Every member of the household has to be looked out for individually and no one escapes the fretting of these people, who surround them with a care which would be welcome if it were given quietly and without fuss.

There is always a strain of tenderness combined with this care, which is often misunderstood. Hence, this looking after trifles only causes irritation in the person upon whom it is bestowed and amusement in spectators. It seems a pity that persons who devote so much time and attention to the trifling things of everyday life could not bring themselves to give this care and thought to more important matters. Instead of fussing over everything and making all who come near them irritable and cross, it is better to overlook many of the trifles not worth bothering about, and learn that care and attention can be given just as well, and will mean infinitely more to those receiving it, if it is bestowed in a quiet way.

Governor Sulzer of New York refuses to allow the state to pay the expenses of the militia troops at the inauguration of President Wilson, and says if any company wishes to go to Washington it must pay for the trip out of its own treasury or from the members' pockets. He holds that it is a Democratic inauguration, and there is no reason why Republicans, Progressives and Prohibitionists should pay taxes to help make a Democratic holiday. The governor proposes to meet his own expenses, and tells the members of his staff that they must pay for the privilege of going. Things are done differently in most states, not excepting Rhode Island.

There are many ideas as to recall legislation. A Democratic member of the Michigan legislature has introduced a novelty in a bill which provides that circuit and supreme court judges shall be chosen at special elections on strictly non-partisan ballots, and shall hold office for life unless removed for cause by popular vote. They shall be immune from re-call for the first two years, and after that, if exonerated by popular vote of any charges brought, no similar proceedings can be had until four years have elapsed.

It is quite evident that all the disclosures regarding the graft system in the New York police department have not yet been made. The confession which Captain Thomas F. Walsh makes to the district attorney is but another chapter in the long story being told by those involved. It shows a disgraceful state of affairs in the big city, of the extent of which few had even a suspicion, although many knew there was some such thing going on all the time.

Chicago claims the parcel post championship, on its record for despatching the greatest number of packages. According to statistics compiled by the postmaster 3,617,673 were sent through the office in January, a greater number, by 646,294, than were despatched by the New York office. However, New York did a larger business in the receiving line, handling 660,182 packages, or 107,865 more than Chicago. It looks as if the Western city were ahead, to date.

As was anticipated, King Alfonso of Spain is not to visit the United States. His lord chamberlain says the king shows the greatest personal interest in this country and would have been glad to make a visit here if it had been possible, but it is not. All Americans would have been glad to welcome the king.

The ice men are really beginning to be encouraged.

MOTOR TRUCKS POPULAR.

The Horse Rapidly Losing Its Foothold in Kansas.

"In one year Kansas has lost 18,582 horses; in four years, 67,000." The above information, recently published by the tax commission of the Middle West commonwealth, is of interest to the manufacturer of automobiles and motor trucks. It is to the advent of power vehicles that this tremendous decrease is accredited by the commission, for in the four years mentioned the tax rolls show an increase in motor cars from 2,000 to 18,000.

From the fact that it is in the wheat country of central and western Kansas that the big losses in the number of horses occur, it is evident that the motor truck is coming into its own. In these parts of the state, according to the report of the commission, the truck has taken the place of the horse to a large extent. On big farms, where formerly from 20 to 40 horses and mules were necessary, only four to six are now kept. The traction engine has taken their places in the cultivation of the land, and the motor truck does the work of hauling produce to market.

Within a radius of a few miles of Topeka there are 70 motor trucks of various sizes constantly in use hauling produce and milk to the city.

THE INCOME TAX.

[Boston Transcript.]

The ratification of the sixteenth amendment of the constitution by 38 states of the Union authorizes Congress to levy a tax on incomes. It sweeps away the requirement heretofore governing the levying of a direct tax—that it must be apportioned among the states on the basis of population. That was the rock on which the Cleveland income tax, carried in the Wilson-Gorman tariff of 1894, was wrecked, the Supreme Court holding that the constitution had been violated by the failure to respect the apportionment principle.

The mere ratification of the amendment does not compel Congress to impose a tax on incomes, but the indications point to the early appearance of the federal assessor in search of revenue from this source. A Democratic Congress, even if it would, cannot avoid a reduction of the tariff. What the treasury loses in this process must be made up in another way and the income tax will be complementary to tariff and the ordinary internal revenue collections. The situation which the Democrats today have to face is analagous to that confronting them when the Wilson-Gorman tariff bill was enacted, with this exception, that the path of the income tax has been cleared of constitutional briers. The analogy extends to public sentiment, for now as in 1894 the East, which will feel the heaviest burden, is in a mood of protest, while the West and South, which will make comparatively small contributions, will welcome the income tax as a triumph of what they regard as the equalization of human lots.

If you would always be sure of an audience abuse somebody.—[Philadelphia Record.

South Scituate Woman Celebrates One Hundred and Second Birthday.

To Discuss Providence East Side Tunnel Extension—Water Rates Complaint.

Mrs. Elizabeth P. McGary, who recently celebrated her one hundred and second birthday in South Scituate, received the pastor and a number of the parishioners of the Beneficent Congregational Church of Providence of which he is a member. Mrs. McGary is in the best of health, and has not been ill a day this winter and is as active as a person of her years could be. She was born in Barnstable February 9, 1811, and recalls many interesting and historic events. She was the daughter of Captain John Kasper Kellar of Barnstable, and her grandfather on her mother's side was Captain George Lewis, well known in the eighteenth century as a Cape Cod sailing master. It was in the old Cape Cod town that Mrs. McGary spent her childhood and lived until the time of her marriage. Her husband was James R. McGary, an East India merchant of Wilmington, N. C. She and her husband went to live on a plantation in Wilmington, N. C., where he died seven years later. Mrs. McGary remained there several years, living with her three daughters who were born in the South. Her life on the plantation was brought to an abrupt close by the destruction of her home during the negro insurrection which preceded the outbreak of the Civil war. She then moved to this state and bought the "Judge Foster" farm in South Scituate, re-naming it Glen Echo farm. She has lived there since. During her earlier years she was a frequent contributor to many of the magazines and periodicals of the time. During her residence in South Scituate she has been actively connected with the Beneficent Congregational Church.

Six hundred invitations to a dinner-discussion of Knight C. Richmond's plan for an extension of the East Side tunnel in Providence beyond Butler avenue have been issued. The gathering is to be held next Tuesday evening. Mr. Richmond will present his plan, which includes the extension of the tunnel and overcomes objections of East Side residents to the present plan. Among the invited guests are Mayor Joseph H. Gainer, City Engineer Otis F. Clapp, Commissioner of Public Works Walter F. Slade, City Solicitor Albert A. Baker, the aldermen and councilmen, Vice President D. F. Sherman of the Rhode Island Company and Ellsworth Sisson, president of the Board of Trade. East Side residents claim that there is reason to believe that, with the completion of the tunnel as now planned, all of the heavy suburban passenger and probably the express freight cars to the east will be turned through Angell and Waterman streets, including the Taunton and Fall River cars, and the extra Hunt's Mills cars, which now go by way of Watchemoket square, East Providence. They claim that this will have an injurious effect upon the residential property on Angell and Waterman streets and adjacent territory.

A protest against some of the methods of the Bristol & Warren Water Works has been presented to the Bristol town council by James J. Walsh, requesting that the council take such action as will bring the complaint of water users before the Public Utilities Commission, for the installation of meters in houses on reasonable rates, which the petitioner asserts are not received by water takers. A committee was appointed to investigate the complaint for the purpose of taking it before the Public Utilities Commission. It is to report at a special meeting of the council.

The one hundred and fourth anniversary of the birth of Abraham Lincoln will be observed by the members of the Republican Pioneer Club of Rhode Island with a business meeting and banquet in Providence February 12. This club is composed of members of the Republican party who cast their first votes for either John C. Fremont, the first Republican candidate for President, in 1856, or for Abraham Lincoln in 1860. Colonel Samuel A. Pearce has been president of the local branch since its inception in 1904.

The annual Church Students' Conference of the New England Colleges of the Protestant Episcopal Church will be held this year at Brown University, February 21 to 23. During the past eight years the conference has met in nearly all of the large New England colleges, but this will be the first time Brown has entertained the convention. The president of the conference will be Bishop De Wolf Perry, Jr., of Rhode Island. An attractive program has been arranged under the direction of the president. At the introductory meeting Bishop Perry, Dr. W. G. Everett of Brown and Robert H. Gardiner of Boston will speak. Among the speakers for the other services are Bishop Funsten, Professor William Macdonald and Rathbone Gardner.

Two more Rhode Island postmasters have been added to the three whose nominations are blocked by the deadlock in the Senate over President Taft's appointments. The names of Edward S. Payne to succeed himself as postmaster at Block Island and James S. Scully as postmaster at Crompton, the latter office having just reached the Presidential class, have been sent to the Senate.

MIDDLETOWN.

Men of Methodist Church Fix Date for the Turkey Supper.

[Regular correspondence of The News.]

Following an afternoon meeting of the Ladies' Aid at the parlors of the Methodist Episcopal Church, a New England supper, of brown bread and beans, potato salad, rolls, cake and coffee was served at 6 o'clock to about 75 persons. At its conclusion two business meetings were held, one by the men, who discussed the proposed turkey supper. It was decided to hold the affair February 20. The committees are to be almost identical with those of last year, Mr. William J. Peckham to act as chairman. The second business meeting was conducted by the Epworth League Cabinet officers, to plan for a Valentine social next week.

A musical program was then given, as follows: Ladies, trio—Mrs. Ida M. Brown, Mrs. Edward E. Wells, and Mrs. John P. Peckham—"Daybreak," with encore, "Little Boy Blue;" piano solo, Miss Sadie E. Peckham; two selections by Mrs. Peckham, "Cradle Song" by Brahams and "When the roses bloom" by L. Reichardt; vocal duet, Mrs Brown and Mrs. Peckham, "Happy winter time." A variety of games concluded the evening.

Traveling continued icy all day Wednesday, and one of the local blacksmiths shod 20 horses alone. Some of the ponds were partially frozen over.

An unusual number of whistling quails have been seen the past month, and they appear comparatively tame.

The meeting of Holy Cross Guild was held Tuesday, as the usual day fell on Ash Wednesday.

An evening service was held at the Church of the Holy Cross on Ash Wednesday, with a sermon and Story of the Cross by the rector, Rev. F. W. Goodman.

Mrs. I. Lincoln Sherman entertained the Choir Guild of St. Mary's Church at her home on the East Main road today, at an all-day session.

The Paradise school presents the following list of pupils whose names appear on the roll of honor for the term ending January 31: Arthur Brooks, Isabella Anderson, Mary Rose, Annie Rose.

Those of the Portuguese who are attending the evening school regularly seem much interested and are desirous of having three sessions a week, instead of two. The teacher, Miss Carrie W. Sturtevant, does not consider this advisable at present, however.

Mrs. John H. Peckham, who has been during the past six weeks in Fall River, caring for her mother, Mrs. Brownell, who is recovering from double pneumonia, is at home for the week, but expects soon to go back for a time. She is entertaining Mrs. Herbert Caryll of Medford, who came from Boston Wednesday evening. Mrs. Caryll was formerly Miss Bertha Morrison, teacher at the Peabody school four years ago.

Members from Aquidneck Grange are planning to attend the initiation at Portsmouth Grange.

THE WEATHER.

BOSTON, Feb. 6.—Forecast for Boston and vicinity—Fair tonight and Friday; not much change in temperature; moderate, westerly winds.

WEATHER CONDITIONS.

With the exception of a few light snow flurries in the lower Lake region, the upper St. Lawrence valley and northern Vermont, the weather is fair this morning. The northeastern depression is apparently off the coast of Newfoundland, the lowest being 29.44 inches at St. Johns. A weak secondary depression overlies northern New England, with a reading of 29.72 inches at Northfield, Vermont. Except for a slight rise on the eastern slope of the Rocky mountains, no marked or decisive changes in temperature are reported, and it is near or below the seasonal average in all sections. At Boston at 8 a. m. it was 18. New York 22, Washington 26, St. Louis 10, Chicago 6, Kansas City 10, Denver 10 and San Francisco 50.

CITY OF NEWPORT.

Notice to Land Owners.

SEALED PROPOSALS will be received by the Board of Aldermen of the City of Newport, at the office of the City Clerk and at no other place, on Thursday, February 13, 1913 at 5 o'clock p. m., for land to be purchased by the City and used for play-ground purposes.

Each proposal should contain the price, location and a particular description of the land offered.

The Board reserves the right to accept or reject any or all bids.

For the Board of Aldermen.
F. N. FULLERTON,
City Clerk.

CITY OF NEWPORT.

SEALED PROPOSALS will be received by the Board of Aldermen of the City of Newport at the office of the City Clerk in the City Hall, and at no other place, until 5 o'clock P. M. Thursday, February 13, A. D. 1913, for price for the collection and disposal of the city refuse, in strict accordance with the conditions and specifications on file in the office of the City Clerk and in strict accordance with the Ordinances requiring the minimum rate to be paid to laborers employed on contract to be two dollars and twenty-five cents per day of eight hours.

Each proposal must be directed to the Board of Aldermen of the City of Newport, R. I., and endorsed with the bidder's name.

Blank proposals may be obtained at the office of the City Clerk in the City Hall and no bid will be acceptable unless it is made out on one of the specially prepared forms.

No proposal can be withdrawn after having been opened by the Board.

The successful bidder shall, within two weeks of the awarding of the contract, be required to give to the City of Newport a surety bond for fifty per cent (50 per cent) of the amount of the contract price for the faithful fulfillment of the contract.

A certified check for two hundred dollars ($200.) payable to the City Treasurer of said Newport, must accompany each bid, to be considered as liquidated damages on failure to enter into contract as awarded. Checks of unsuccessful bidders will be returned immediately.

The Board reserves the right to reject and accept or eject the equipment proposed to be used by the bidder on this contract.

The right to accept or reject any or all bids is reserved.

By order of the Board of Aldermen.
F. N. FULLERTON,
City Clerk.

LIKE THAT WORN IN 1744.

New Uniform for Artillery Company of Striking Appearance.

A pattern of the new uniforms adopted by the Newport Artillery Company has been received at the armory for inspection by the members, and is the subject of much admiration. It is a handsome affair and will undoubtedly attract plenty of attention when the company blossoms out with it. It has been felt for a long time that the Artillery should have a uniform more distinctive from the regular army type, but just what has been the problem.

The new uniform is after the style worn in 1744, three years after the company was organized. During the first three years of the Artillery's existence each man as a rule wore a different uniform, until in 1744 a regular dress was adopted. The company has now selected a uniform which is practically a duplication of the old pattern of nearly 180 years ago. The frock is dark blue with scarlet trimmings, lined with white, white breeches, black knee leggings, and cocked hat, crescent-shaped. The coat has a tan, crescent-shaped. The coat has a tan collar of red and slashed cuffs of the same color.

STEAMER RELICS HERE.

Wheelhouse Carvings on Artillery Armory and Red Men's Building.

The Fall River Line Journal's recent article on the old steamers of the company causes one to recall that one of the old wheelhouse carvings of the Metropolis has for a number of years adorned the front of the Newport Artillery armory. Its mate was located on the Scott building, opposite the postoffice, when the Newport Light Infantry was quartered there. A similar work from steamer Bristol has passed on the front of the Red Men's building. It is suggested that a plate be attached to both these, that as memory passes the identity of the carvings may not be lost.

Steamboats of modern construction do not have these elaborate displays of the wood carver's art, and probably few persons have thought for years that these ornaments are the last material evidence of the famous old steamers. Many remember, or have heard, that the Bristol was burned at her dock here, but the number is rapidly decreasing of those who recall that the old Metropolis spent her last years at what is now known as the Training Station anchorage.

A BRIGHT RED COLOR.

Letter Boxes to be Re-Painted According to Orders.

A bright, vivid red color is soon to be applied to all the letter boxes in this city, as well as in other places, under orders from the Postoffice Department at Washington. Postmaster Burlingame says it is a disagreeable task, re-painting all the boxes, because some people are bound to be smeared with the paint in dropping in their letters, but adds that the change in the color will surely be made upon receipt of orders from Washington.

The present green is probably more durable, but the brilliant red, such as Postmaster General Hitchcock specifies, is certainly more striking and distinguishable at a long distance. Eventually it is expected that the wagon which delivers the parcel post mail will take on the same hue. The order for the painting, however, of either the boxes or the wagon, has not yet been received in this city.

NOT REALLY A BLANKET.

Yet Even a Little Flurry Counts for a Snowstorm This Year.

The early morning hours today ushered in the fifth snowstorm of the season. It was not what could be called a blanket, for a good hour frost would have made a whiter showing. In an ordinary winter it would not have counted for a snowstorm, but no flurry can be allowed to escape this year if it is to be called a winter.

If the snow is light, the cold is not. It has not been extreme, but the searching northeaster blows with a March-like chill which is permeating. It promised well Wednesday night, when the temperature dropped to 22, the wind was still and the ponds responding to expectations by freezing over. There are a few airholes in the north or Green End pond, but in a general way they can be said to be ice-bound. If it will stay cold several days there will be some ice. It is not likely that the ice men will wait for 14 inches this winter; they will take about anything which can be handled.

The weather seemed pretty fair this morning and at noon, with the thermometer marking 26 in the shade, another in the sun, and placed where it had the full benefit of its rays, stood at 61, and it felt like 61 close by. Shortly after noon the sun became obscured, the wind grew stiffer and colder, the temperature dropped and it looked like more snow, but the sun again came out and made things look pleasant.

AT WORK ON NEW PELICAN.

Captain Willoughby Enthusiastic Over Port Sewall, Fla.

Captain H. L. Willoughby writes enthusiastically regarding the new town which the company of which he is president is promoting in Florida. Port Sewall is its name, and it is a new seaport on the east coast, which he believes is the only one between Jacksonville and Key West where the government will spend any considerable amount of money, because of the small yearly cost of maintenance. The location is at the junction of the St. Lucie and Indian rivers, right opposite the inlet from the sea. The place has a water frontage of three miles, has a hotel and three building sites a week is the average sale. Captain Willoughby says he is hard at work on the Pelican III and hopes to be ready to fly by March. The new machine has 10 feet more spread of wings than the Pelican II, which is still here at Newport.

JAMESTOWN.

[Regular correspondence of The News.]

Efforts, by dragging with trawls, were made all day Wednesday to find the body of Jack Silvia, drowned Tuesday afternoon, not only at the place where the accident took place but farther up the bay, but without success. The man's hat and the gaff hook which he still grasped when he went down were found on the west shore, about a mile and a half away above. The Fabre liner Roma, which went up the bay Wednesday, came down this morning on the way to New York. Captain Clarence King of this town, who piloted the vessel, was taken off by Champion's launch, near the Dumplings.

At the regular meeting of the Grange, Wednesday evening, the lecturer's hour was devoted to an entertainment by the members, each one present being obliged to entertain for two minutes or pay a fine. This resulted in a varied and enjoyable program. Refreshments were served.

Several strangers were in town Wednesday, looking over the boats of the ferry company in connection with the closing of the Stone Bridge at Tiverton.

Wednesday was the monthly practice night for the fire department. The new rubber coats recently purchased by the town were distributed among the companies.

RUNAWAY NIPPED IN BUD.

Oakland Farm Horses' Plan Stopped by Daniel Wetherell, Jr.

There was a start for what looked good for a real runaway this morning, but it was nipped in the bud. One of the big Oakland Farm teams stood in front of the Tisdall store on Broadway, headed in town, the right way, but when something moved them to move they moved toward home, and shelter; that is, they started to turn to run out Broadway. It looked like the real thing. The big horses were a trifle slow in turning, but once straightened out for the country they would have made a bad outfit to try to stop.

Just as this turning movement was on Daniel Wetherell, Jr., driving J. W. Horton & Co.'s wagon, came into the field of action and shut off the Oakland Farm horses from their contemplated plan. It was a rather narrow escape for the light Horton wagon, but it weathered the storm and the big horses were stopped.

The time was about 8:50, the street was well peopled with children on the way to school, and there were enough vehicles on the road to have made the runaway exciting, even if no one was hurt.

SUB-COMMITTEES MEET.

Suburban Incandescent Electric Light Found to Work Well.

The sub-committees on highways and bridges and on health met Wednesday evening, and that on tax laws will meet tonight. The highways committee about finished up its work, preliminary to reporting to the full committee Friday evening.

After the meeting the committee, which had already earned the reputation of doing more outside work than any other under the new charter, added to its laurels in this line by taking a trip, on the cars, as far as Bedlow avenue. There Manager Gosling of the Bay State Street Railway Company had established one of the suburban incandescent electric lights which the committee had been talking about as suited for the road back of the beach, the Malbone avenue and other suburban sections, where lights are needed, distances are magnificent and there already exists a pole line on which feed-wires can be carried.

The light was found in good working condition, about 2,300 feet from Broadway, and every member of the committee was glad he went, for all were pleased with the new light. It seemed ideal for the purposes for which it had been talked about, and it is understood that the committee will recommend that this style be installed on the beach road and perhaps at other places.

Then the committee, to show that it is still the lively committee of this session, walked in from Bedlow avenue and beat the car in.

LOCAL BRIEFS.

—Mr. James H. Barney, Jr., is confined to his home by illness.

—Mrs. Hamilton Fish Webster went to New York this morning.

—Mrs. James J Shaw of Medford, Mass., is visiting Councilman and Mrs. John J. Cassidy.

—Mr. Fred Helgeson recently passed the examination for registration before the Rhode Island State Board of Pharmacy.

—Captain Anderson of steamer General has returned to duty, after a short vacation during which he moved his family from Brooklyn to Wickford, where the General ties up nights.

—DeBlois & Eldridge have rented for A. L. Audrain office rooms on the second floor in his building on Bellevue avenue to Mollie O'Harn of New York, for the season of 1913.

—At the recent meeting of the directors of the Young Men's Christian Association Mr. William B. Franklin, who had been first vice president for many years, declined a re-election and Mr. Frederick Weir, second vice president, was elected first vice president and chairman of the executive committee. Mr. George H. Bryant was chosen second vice president.

—Lieutenant Colonel A. A. Sherman has long enjoyed the reputation of being the tallest man in the Newport Artillery. Now comes a recruit, also from Portsmouth, Borden Anthony, who outstrips him in the matter of height by at least two inches. Mr. Sherman measures exactly six feet, while Mr. Anthony, in his examination a few evenings ago, stood 6 feet 2 inches in his stockings.

—District Deputy Grand Exalted Ruler Daniel J. McGowan of Newport Lodge of Elks will make an official visit to Providence Lodge Wednesday evening, February 12, accompanied by a party of 75 or 100 members. The following committee is making the arrangements: Charles H. Sullivan, Thomas Lane, C. J. Cooper, R. L. Fitzgerald, and P. J. Sullivan. The district deputy will later visit the Pawtucket, Woonsocket and Westerly lodges.

SECRET COURT-MARTIAL.

Inquiry Into Causes of Suicide of Commander Marble.

Surgeon John F. Leys, U. S. N., presided over a secret court-martial which was held today at the Naval War College to determine, if possible, the causes which led to the suicide of Commander Frank Marble, U. S. N., at the War College, nearly two years ago. Commander Marble was a member of the staff of the college and his body was found in the bathroom in his quarters, with two bullet wounds in his head. A naval inquest at that time rendered a verdict of suicide, but did not give any motive for the officer's act.

Commander Marble had, it is said, been assigned to carry out a special duty which had been begun by the late Rear Admiral Charles S. Sperry. It is claimed by his associates that in working out the details he had given long hours of study to the problem, which contributed to his breakdown, and that the fear that his physical condition was such that he could not pass an examination for promotion led him to take his own life.

The findings of the present inquiry will be forwarded to the Navy Department at Washington

TOO WINDY FOR FISHING.

The fishermen went out again this morning, but found the wind so strong that it was impossible to do any fishing, and so they came back. Captain Reardon was out longest, but it was growing worse all the time and he finally came in. They needed some fish, as the local market is well-nigh bare. Fish are also scarce at Boston, because of the weather. The prices are sure to be high tomorrow and perhaps there will be a scarcity of fresh fish, but there is plenty of pickled and dry cod available.

CHARLES RIVER NAMED.

New England Wishes Annual Rowing Regatta Next August.

BOSTON, Feb. 6.—A formal invitation to hold the annual rowing regatta next August on Charles river basin will be forwarded to the National Association by the New England Amateur Rowing Association. It was announced today. It is four years since the regatta was held in New England. The races were rowed then on the Connecticut river at Springfield. It is more than 10 years since they were held on Charles river. The Charles river basin course is 1⅜ miles in length and little or no current, beside being fairly well protected from heavy winds.

The New England Association has appointed a committee to push its claims at the annual meeting of the National Association in New York, March 15.

BOTH SIDES WISH SETTLEMENT.

A Rochester Woman Striker Killed During a Riotous Attack.

ROCHESTER, N. Y., Feb. 6.—Five leaders of the garment workers' strike, Abraham Zeller, Louis Solomon, Bennio Cerulli, Harry Schreibnick and Isadore Miller, are under arrest today, charged with inciting riot, and Valentino Sauler, proprietor of a clothing shop, is also in prison on a charge of first degree murder, following the riotous attack on his shop last night when Ida Berman, one of the strikers, was killed when Sauler fired into the crowd. Eight others were injured in the affair, but none seriously.

The strikers and manufacturers are both expressing themselves today as willing to meet and bring their difficulties to an end.

The clothing manufacturers will ask the present grand jury to investigate the conditions in Rochester clothing factories. They assert that the strike is an effort on the part of agitators to discredit the Rochester trade.

THROUGH SEVERAL DISEASES.

Extermination of Population of Alaska Within 50 or 60 Years Predicted.

WASHINGTON, Feb. 6.—Extermination of the native population of Alaska within 50 or 60 years, through the ravages of tuberculosis and other diseases introduced by the white man, is predicted by Dr. Emil Krulish of the public health service. Dr. Krulish today reported to the federal bureau of education on the investigation he has just completed. He paints a dreary picture of the future for the native Alaskans unless steps are taken immediately to ameliorate their condition. Where work along scientific lines has been undertaken, says Dr. Krulish, the betterment of the Indians is everywhere apparent. He complains, however, that the rescue work is not widespread enough and advocates a much larger force of physicians and field nurses, who would teach the natives the laws of hygiene.

It is pointed out in the report that there are no funds available for the erection of hospitals or segregation buildings and these are held to be necessary if work is to be done. Physicians, it is said, now are compelled to work in rented buildings unsuited to caring for the sick and many of which have no conveniences whatsoever.

POLICE EXAMINATIONS.

Mayor MacLeod Pleased With Tests and May Report This Evening.

Mayor MacLeod was well pleased with the civil service examination which he held Wednesday afternoon in the aldermanic chamber of the City hall, to aid him in selecting the three new permanent policemen. Nine of the ten specials eligible for the examination appeared and took the test. There was some scratching of heads, and some of the men were heard to say afterwards that they knew they had not made as good a showing as they should have done. As the mayor explained to them that he did not expect that any would be able to answer all the questions, they need not feel disappointed if they missed some. He seemed pleased at the spirit shown by the nine who took the examination. No one had made any preparations for it; they took it just as they stood, and the mayor understands this and makes full allowance therefor.

This afternoon the physical examination will take place in the gymnasium of the Young Men's Christian Association, and then it is a matter of finding only eight hands in the navy to test, Mr. F. M. Greenlaw is examining the written papers. Mayor MacLeod says the results of the examinations are valuable, so that he can tell the standing of each, he will make his nominations to the force at the meeting of the Board of Aldermen this evening. If they are not ready then, the appointments will be deferred.

SPECIALS.

Monday—Tub Butter
30c lb, 3 1-2 lbs for $1.00
Tuesday—Small Smoked Shoulders 12 1-2c
Wednesday—Legs of Lamb 18c
Thursday—Boston Rolls 16c, 22c

IMMIGRATION BILL HEARING.

Protests from Germany, Italy and The Netherlands Before Taft.

WASHINGTON, Feb. 6.—When President Taft gave a hearing today upon the new immigration bill he also had before him protests from Germany, Italy and the Netherlands against the provision which authorizes the Secretary of Commerce and Labor to place inspectors, matrons and public health service surgeons on board immigrant ships to report to American immigration authorities upon the condition and treatment of immigrants en route.

Another protest from Austria is said to be on the way, and intimations have been received that France and England will join the protest. All the protesting nations are said to regard the provision as an infringement of their sovereignty over their ships on the high seas, and impugning the faith of their officials in the execution of the immigration laws.

Many prominent Jews arrived here today to protest to the President against certain features of the bill.

President Taft told those appearing that he was virtually sitting as a judge. Senators O'Gorman and Root, Secretary Nagel, Representatives Roberts, Thayer, Kahn, Sabbath and Curley and Julius Rosenfeld of Chicago and Louis Marshall of New York were among 100 or more of those seated about the President.

"The burden is upon those who oppose this bill," said the President. "It requires a very strong showing to induce the executive to override the action of both houses of Congress."

President Taft said that every organization interested, not represented by a speaker today, might file a brief. He allowed three hours for the hearing, equally divided between the two sides.

CRUCIAL TEST SUCCESSFUL.

First Checks Paid to Pensioners Under New System Sent Out.

WASHINGTON, Feb. 6.—The first checks paid to pensioners under the new system, which did away with the 15 agencies in various parts of the country and united them here under one head, have just gone out and every one of the more than 300,000 due this month were in the mail on time.

"The crucial test, the one which we were not sure we should be able to pass successfully, has been made without a hitch," said Dr. Alvah H. Thompson, in charge of the disbursements, today, after the last pensioner's check had started on its way. "On account of the vast work involved in bringing in all these agencies with their voluminous records it was feared there might be some delay this first month, but such, happily, is not the case."

One of the things that pleased him most about the new method of payment, Dr. Thompson said, was that all the checks are drawn on the Treasurer of the United States. In days of stringency or a money panic he said this would tend to keep money from concentrating, for the thousands of banks throughout the country that would be called on to cash pension checks, totalling many millions annually, would be able to keep their actual cash at home.

WOMEN ELIGIBLE.

Illinois Court Find Them Fit for Assistants to Probate Judges.

CHICAGO, Feb. 6.—The way to offices heretofore held only by men was left open to invasion by women here yesterday when the county civil service commission held that women are eligible to the position of assistant to probate judges. The ruling came after an argument by Miss Frances E. Spooner, a lawyer, who had signified her intention of taking an examination for the position. She appeared before three attorneys for the commission and convinced them that she was well versed in probate matters. As a climax to her argument she reached for an Illinois statute and read: "No person shall be debarred from any occupation, profession or employment (excepting military duty) on account of sex."

The lawyers said they could find no reason to deny her the examination and the ruling of the commission.

FOR FEBRUARY 4.

Call Issued for the Condition of All National Banks.

WASHINGTON, Feb. 6.—The comptroller of the currency today issued a call for a statement of the condition of all national banks of the United States at the close of business Tuesday, February 4.

LOCAL BRIEFS.

—Mrs. Charles A. Siegfried and Miss Siegfried have returned from New York.

—Senator and Mrs. George Peabody Wetmore will give a dinner February 12 at their Washington residence, in honor of President and Mrs. Taft.

—Commander W. V. Pratt, U. S. N., returned Wednesday from Washington, where he spoke before the extension course of the Naval War College.

—Mrs. Elisha Dyer arrived Wednesday from New York for a few days' visit, during which she will inspect her Bellevue Avenue residence and make arrangements for next summer.

—The police had only one case for the judge this morning, a man charged with assault. He pleaded not guilty and in default of bail went to jail. His case was continued to Tuesday next.

—Harry A. Whipple has signed the contract for the addition to the dance hall at the beach, and will start the work as soon as the lumber begins to arrive, which is now expected by the last of the week.

—The monthly meeting of the Board of Trade, according to the by-laws, comes next week. New members will probably be elected, as a number of application blanks have been signed in response to the board's advertisement.

—The types Wednesday made The News credit the city with a steamer which it does not possess—No. 3. There has been some guessing as to which was meant and in justice to No. 2 it should be stated that its response was very prompt. Steamer 5 the types should have made it.

—There continues to curl up from a place about in front of where the main entrance of the Weaver building was located what many mistake to be smoke. Those who are working on the job say it is only steam, and shows that that part of the ruins is still holding a great deal of heat. There is supposed to be a large pile of seeds in this location.

—Mr. Claus A. Iverson, who came from Norway to settle the loss on his property, the former Allan estate, corner of Spring and Stone streets, is still waiting for the adjustment by the insurance people, which is expected some time this week. Until this is made he does not know just what he will do, but he will probably re-build, in some form.

OFFICE HOLDERS ANXIOUS.

Federal Employes Not Sure of Favor in the New Administration.

"Faithful" Men Numerous—The Bryan Idea—Wasted Energy—Parliamentary Knowledge.

[Washington correspondence of the News.]

WASHINGTON, Feb. 5.—As the time approaches for a change in the administration the anxiety of many office holders increases. They are not sure that President Wilson will be able to live up to the ideas of Governor Wilson in regard to keeping men in office who have proved faithful employes. Now, most of those holding office could come under the head of "faithful employes," not only those who are really protected by the civil service regulations, but those who are purely political appointments or have been so considered in the past. Those employes who have been hoping that they will retain their places are fearing the pressure for place will oust them. Such are the signs of the times in Washington.

As well as I can recollect, and it is the impression of many Democrats, Bryan is one who believes that rotation in office when a new administration comes into power is a good thing. Bryan's idea is that Democrats who have been out of office 16 years ought to have an opportunity to show what they can do. If Bryan is Secretary of State he ought to have considerable influence in shaping the policy of the administration in the matter of patronage.

There is quite a demand for a "wasted energy" organization in the national capital. If anything comes of it I am going to nominate Moore of Pennsylvania, Mondell of Wyoming and Callaway of Texas as members of the executive committee from the House of Representatives. For several days these men fought against the river and harbor bill and worried the members of the rivers and harbors committee as they criticised items in the bill and complained of omissions. But it was all "wasted energy".

That bill more than all others was "scientifically constructed," as one man put it, the "science" being in that it was so framed that it was sure to go through. After days of hard work, much talk and no results the three "musketeers" saw the bill pass as its sponsors prepared it.

The onslaught of Moore, Mondell and Callaway recalled the days of insurgency of Colonel Pete Hepburn. The colonel is now 80 years old, and he would try to knock anybody down who indicated that he was not a "regular," a "standpatter" or anything not absolutely Republican. But there were times when he was a steadfast insurgent.

He insurged against the rules; he insurged against river and harbor bills. In fact, no one ever knew just how long he would "stay on the reservation" on any proposition. Since the days of Hepburn and before the other three gentlemen who made a fight this year got into the game there has been no one to criticise river and harbor bills.

Parliamentary knowledge is a wonderful thing. Jim Mann, by knowing how, conducted a filibuster which compelled the House to give a day to the Lincoln memorial. That when the time came and different amendments were proposed he knocked out every one by his parliamentary point of order that nothing was in order but the resolution which approved the memorial plans. All the debate, all the talk for a Gettysburg highway, all the other plans, went for naught. Speaker Clark sustained the point, and the opponents of the Greek memorial plan were helpless.

"I was never treated more courteously in my life," explained Congressman Hamilton of Michigan to the House when he was trying to get an amendment in the river and harbor bill. "The members of the committee treated me with every consideration. They showed much interest. I felt sure that I had made an impression and that my request would be granted. But when they came to vote on it they voted me down." And the House laughed at Hamilton and followed the committee in again voting him down.

During the debate on that army bill Congressman Helm of Kentucky complained that the War Department had no military policy. A few days later Congressman Kahn of California furnished the House with information in the way of publishing in the Record 48 columns of fine print giving a complete account of the military policy as adopted by the department upon the recommendation of the army officers. Owing to present conditions the policy can be put into effect but partially. There are not enough available troops at central points to carry out the plan entirely.

Arthur W. Dunn.

MOVEMENTS OF FLEET VESSELS.

Battleships Minnesota, Idaho and Ohio and mine planter San Francisco have arrived at Critobal.

The Dixie, Yankton and torpedo boat destroyers Roe, Drayton, McCall, Paulding, Terry, Sterett, Warrington, Monaghan, Ammen, Burrows, Patterson, Trippe, Jenkins, Jouett and Jarvis have arrived at Guacanayabo bay.

The Castine, Tonopah, and submarines D-1, D-2, D-3, and E-1 have left Neuvitas bay for Guantanamo.

ORDERS TO NAVAL OFFICERS.

The Navy Department announces the following orders to officers:

Rear Admiral Joseph B. Murdock, placed on the retired list from February 13, detached from all duties and ordered home on that date.

Lieutenant W. F. Halsey, Jr., detached from the command of the Flusser and ordered to duty in connection with fitting out the Sumner, and as executive officer and navigator when that vessel is commissioned.

Assistant Paymaster R. S. Robertson, detached from the bureau of supplies and accounts, February 15, and ordered to the Tacoma.

Assistant Paymaster O. D. Conger, detached from the Tacoma, February 15, and placed on waiting orders.

Paymaster's Clerks E. E. Hartline and W. J. Smith, appointments for present duties revoked.

First Lieutenant H. N. Manney, Jr., marine corps, detached from the marine barracks, New York, and ordered to the receiving ship at New York.

WATER.

Persons desirous of having water introduced into residences or places of business should make application at the office of the Newport Water Works, 5 and 7 Marlborough street. Office urs from 8 a. m. to 5 p. m.

NO DEFINITE PLANS MADE.

Nearly 100 New England Suffragettes to Parade March 3.

BOSTON, Feb. 6.—Nearly 100 New England suffragettes intend to tramp through the streets of Washington when President-elect Wilson is inaugurated next month. Although no definite plans have been made for New England's representation in the suffragette parade March 3, Massachusetts leaders stated today that this section of the country would be well represented. Fifteen Massachusetts women have said that they would participate in the parade. Suffragettes in other New England states were expected to appoint delegations within a short time.

Arrangements have been begun to have Massachusetts bands take part in the inaugural parade. A resolve to appropriate $5,700, to cover the expense of transporting bands and companies of militia to Washington was reported in the House of Representatives this week by the military affairs committee.

CABARETS BARRED.

Ban Placed on Entertainments by the Philadelphia Police.

PHILADELPHIA, Feb. 6.—"Cabaret" entertainments are placed under the ban by a police order issued last night by Director of Public Safety Porter. More than a quarter of a century ago a license court judge in this city laid down the dicta that "beer and music do not mix." The presence of music, however, has not been objected to by the authorities until recently, when the prevalence of "cabarets" caused the director to order an investigation and the issuance of last night's order. The police served notice of the order on the big hotels and cafes, as well as the smaller saloons. The managers of the former, however, declare that they are not affected and their orchestras continued to play.

NO INTEREST SHOWN.

Schools of District of Columbia Find Vocational Training a Failure.

WASHINGTON, Feb. 6.—Although directly under the eye of the federal bureau of education, which preached vocational training in the public schools of the country, the school system of the District of Columbia apparently has found the experiment more or less of a failure. Lack of interest in the special classes has made it necessary to suspend several teachers and orders probably will go out today from the board of education granting "forced leave" to several. Some of the special classes were found to be so small that their continuation was deemed inadvisable.

BODY AND FACE MASS OF ECZEMA

Grew Worse Until Hands and Feet Swollen and Running Sores, Skin Would Drop Off in Scales. "Practically a Shut-in." Cuticura Soap and Ointment Entirely Cured.

Brownville, N. Y.—"Cuticura Soap and Ointment cured me of a stubborn case of eczema which followed a severe case of scarlet fever. My body and face was a mass of sores so that I was practically a shut-in. It grew worse until my hands and feet were swollen and running sores. I tried many remedies. One kind which I used fairly burned my skin up so that it would drop off in scales as if it was scalded. But thanks to good advice I then used Cuticura Soap and Ointment. In a short time I was entirely cured. Now my skin is clear as ever and I have had no return of the disease. I hope this letter will help the suffering ones who are suffering eczema." (Signed) Miss Edna Bidwell, Jan. 10, 1913.

TO REMOVE DANDRUFF

Prevent dry, thin and falling hair, allay itching and irritation, and promote the growth and beauty of the hair, frequent shampoos with Cuticura Soap, assisted by occasional dressings with Cuticura Ointment, afford a most effective and economical treatment. Sold by druggists and dealers everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. T, Boston."

Tender-faced men should use Cuticura Soap Shaving Stick, 25c. Sample free.

MARTIAL LAW IN SALVADOR.

President Araujo in Dangerous Condition as Result of An Attack.

WASHINGTON, Feb. 6.—Martial law has been proclaimed throughout Salvador. President Araujo lies in a dangerous condition as the result of an attack yesterday by five would-be assassins. Only one of the five shots directed at him took effect, but surgeons fear the outcome of a vicious machete wound, which laid the president's head open from the back of the skull to the nostrils.

American Minister Heinke, who reported the details to the State Department, said complete tranquillity prevailed throughout the republic and the attack was regarded as having no other significance than an attempt to remove President Araujo.

SELECTED BY GREAT BRITAIN.

Ambasador Bryce Appointed to Court of Arbitration at The Hague.

LONDON, Feb. 6.—James Bryce, British ambassador to Washington, has been appointed by the British government a member of the permanent court of arbitration at The Hague. It was announced at the time of Ambassador Bryce's resignation that his departure from the United States would depend upon the settlement of the Panama canal question between Great Britain and the United States.

WILL FILL A VACANCY.

Bryce to Remain in Present Position Until End of Canal Negotiations.

WASHINGTON, Feb. 6.—Mr. Bryce's appointment as a member of the permanent court of arbitration of The Hague is to fill a vacancy to be caused next August by the retirement of the president of the British delegation, Hon Sir Edward Fry, who will then be 80 years old.

It is understood here to be the purpose of the ritish government to continue Mr. Bryce in his present position until the conclusion of the Panama canal negotiations. This is upon the presumption that the issue may be brought to an amicable settlement directly between the two governments or that an agreement may be reached for its arbitration before the expiration of the present administration. If that should appear impossible it is expected that Mr. Bryce will remain in Washington until the incoming administration long enough to clearly develop President Wilson's attitude, after which the negotiations may be turned over to Sir Arthur Cecil Spring Rice. Should the canal tolls issue finally go to arbitration it is probable that Mr. Bryce may be selected as one of the arbitrators.

ONONDAGA ORDERED OUT.

Crew of the Remittent May be Safe on the Fimreite.

NEWPORT NEWS, Va., Feb. 6.—The crew of the Norwegian bark Remittent, found sailing abandoned off the Azores by British tanker Roumanian January 19, may be safe on steamer Fimreite, which sailed from Newport News January 1 for Naples and other prts.

While revenue cutter Onondaga was preparing today to put to sea in an effort to solve a mystery which resembled that of the unexplained disappearance of the crew of bark Marie Celeste in 1873, it was reported that the Fimreite, passing Gibraltar January 19, signalled that she had on board the crew of the Remittent. That was the same day the Roumanian, steaming slowly from London to Port Arthur, Texas, came upon the bark sailing wildly about with no hand at her tiller, and took her in tow after a hard chase. After taking the Remittent within 100 miles of Cape Henry, the Roumanian lost her in a blow, still apparently seaworthy, with her big canvas snugly furled, in condition to ride out a game gale with bare poles.

While the report that the Fimreite with the Remittent's crew on board seems to solve what appears to be a mystery, the revenue cutter still will go in search of the bark which probably is still sailing wildly in mid-Atlantic, a menace to navigation. Catching a runaway ship at this time of year, with no reported position to work to, revenue cutter officials declare is almost a hopeless task, for the currents during the last few months have been up to tricks new to the oldest mariners.

WATER UNDER KNEE CAP.

Former Pitcher Brown of the Chicago Nationals to be Operated on.

CHICAGO, Feb. 6.—Mordecai Brown, former star pitcher of the Chicago National club and now a member of the Cincinnati team, will have his right knee placed in a plaster cast today in the hope of curing an injury sustained last summer. Examination of x-ray photographs of the joint showed that there is a gathering of water in the joint under the knee cap. It is said the operation will not be a serious one, and the pitcher has been assured that the joint will be in shape before the season begins.

STEERAGE RATE LOWER.

Price from Europe to Canada Cut by German and Dutch Lines.

HAMBURG, Feb. 6.—The German and Dutch steamship lines announced today that the steerage rate from Europe to Canada would be cut from $40 to $30. The cut includes also the Austro-American service from Trieste, Austria, to Montreal.

HEARD 4,000 MILES AWAY.

Mare Island Complains of Static Interference in Key West Message.

SEATTLE, Washn., Feb. 6.—The United States army wireless operator at Eagle, Alaska, heard the government station at Key West, Florida, sending a message to Mare Island, California, December 18, according to mail advices received here today. The Eagle operator heard Key West's signals clearly, but Mare Island complained of static interference. The distance in an air line from Key West to Eagle is more than 4,000 miles.

OF UNKNOWN ORIGIN.

Business Block, Containing Post-office, at Lancaster Centre Burned.

CLINTON, Mass., Feb. 6.—Fire of unknown origin destroyed a business block owned by Gideon S. Record at Lancaster Centre, early today, causing a loss of about $38,000. The post-office was located in the building and about $1,000 worth of stamped envelopes and a small amount of mail matter were burned. Other tenants who lost practically everything were A. L. Sanford, merchant; F. A. Gould, druggist, the Shoban Club and H. L. Goddard, who with his wife and three children who had living rooms in the building.

OBJECT OF BULGARIAN ARMIES DISCLOSED.

Effort Being Made to Let Greeks Enter Sea of Marmora.

Diplomats of Europe Convinced That War Will Not Last Long.

LONDON, Feb. 6.—The main object of the Bulgarian armies, apart from the reduction of the fortress of Adrianople, was disclosed in despatches from Sofia today. They are endeavoring to reach the Dardanelles straits and clear them for the passage of the Greek fleet into the sea of Marmora, whence it will be able to attack Constantinople directly from the sea.

From the reports of the fighting to the north of the peninsula of Gallipoli, it can be seen that one of the columns of King Ferdinands troops is marching straight for the city of Gallipoli. It has occupied already the villages of Meedeste, Charkeni, Kavak and Bulair, which are on the neck of the peninsula. It has not yet, however, come into contact with any large force of Turkish troops, of which there are said to be 70,000 on the Gallipoli peninsula. These, in the opinion of military experts, should, owing to their favorable position, be able to offer a strenuous resistance to the advance of the Bulgarians from the north.

Even with all these preparations for battle in Gallipoli, with the bombardment of Adrianople in progress and with the movements of troops at the Tchataldja lines before Constantinople, the diplomats of Europe are convinced that the war will not last long. The financial embarrassment of all the combatants and the loss of enthusiasm for the war by the peoples of the countries involved lead to the belief that peace negotiations will be resumed soon. The Turkish government apparently is of the same mind, for Reshad Pasha, who was the leader of the Turkish peace delegates, has received instructions from his government to remain in London a few days longer.

The Constantinople newspaper Le Turc says this morning that a force of 30,000 Albanians is marching on the city of Uskup, which was taken from the Turks by the Servian troops and is now occupied by them.

OTTOMAN TROOPS RETREAT.

Turks Defending the Dardanelles Defeated by the Bulgarians.

SOFIA, Feb. 6.—The Turkish army occupying the peninsula of Gallipoli and defending the Dardanelles suffered a defeat at the hands of the Bulgarian troops to the south of the river Kavak yesterday, according to a semi-official statement made at the Bulgarian war office. The Ottoman troops are said to have retreated in disorder toward the town of Bulair, a small place to the northeast of the city of Gallipoli. They were pursued hotly by the Bulgarians.

The statement concludes that as a result of this success of the Bulgarian troops nearly the whole coast of the sea of Marmora, as far as Bulair, is now in the hands of the allies.

PREMIER VENIZEROS IN SOFIA.

Difficulties Between Greece and Bulgaria Cause of His Visit.

SOFIA, Feb. 6.—The difficulties which have arisen between Greece and Bulgaria as to the division of the spoils of the Balkan war and as to the fate of the captured Turkish fortress of Saloniki were the reasons for a visit paid to the Bulgarian capital today by Premier Venizeros of Greece. M. Venizeros conferres lengthily with Premier Guerchoff of Bulgaria and King Ferdinand and it is hoped here that his visit will result in an arrangement being reached.

HOLLIS LACKS FIVE VOTES.

No Change for Contestants in Race for New Hampshire Senator.

CONCORD, N. H., Feb. 6.—The contestants in the race for the United States Senatorship occupied the same relative positions as yesterday at the end of the vote in the New Hampshire legislature today. Henry F. Hollis, Democrat, with 200, was still five votes away from his goal. Edward N. Pearson, Republican, had 177, Robert P. Bass, Progressive, 22. There were 11 scattering votes, 14 members were paired and two were absent.

PRINCE MICHEL MURAT WEDS.

Marries Miss Stallo of Cincinnati at St. Honore D'Eylau.

PARIS, Feb. 6.—The church marriage service of Miss Helena Stallo of Cincinnati and Prince Michel Murat was performed today at the Catholic Church of St. Honore d'Eylau. Ambassador and Mrs. Myron T. Herrick were among the guests at the wedding breakfast, which was given at the Stallo residence. The bride and bridegroom afterward left for Marseilles.

CLEARLY CONVICTED AT TRIAL.

President Sullivan of Defunct Brooklyn Bank to Go to Sing Sing.

NEW YORK, Feb. 6.—David A. Sullivan, president of the defunct Mechanics and Traders' Bank of Brooklyn must serve his sentence of not less than two years in Sing Sing, for the larceny of $20,000 from the institution in 1907. Supreme Court Judge Kapper so decided today in dismissing Sullivan's application for a writ of reasonable doubt. The justice held that Sullivan had been "clearly convicted after a fair and impartial trial."

DID NOT CONFORM WITH LAW.

Five Theatres of the "Loft" Class Closed by the Chicago Police.

CHICAGO, Feb. 6.—Five theatres of the upstairs or "loft" class, one of them in the down town district, were closed by the police last night on an order from the building commissioner. All the theatres, with the exception of the one down town, were 10 cent houses. Arrangements had been made by the down town house to close its doors next Saturday, in order that the place might be remodelled to conform with the city ordinance. The theatre had been sold out for last night's performance and $904 was returned to ticket holders.

BEACH AND HIS WIFE TELL THE SAME STORY.

[Continued from First Page.]

to leave Aiken, the latter part of March, he went to the mayor's office and declared his intention. He told the mayor, he said, that he would stay if needed, but the mayor told him it was all right for him to go.

"Be a good boy and have a good time," he said the mayor told him, slapping him on the back.

Prosecutor Gunter then began the cross-examination of Beach.

"Did you have an engagement to play golf that afternoon?"

"I did, but I remained at home. It rained."

"What did you do that afternoon?"

"I took a nap."

"Was any one there when you awoke?"

"Mr. Joe Harriman was sitting on the front porch, talking to Mrs Beach."

"What did you do later?"

"I went to the club."

"Did you take something there?"

"I suppose I did. I returned home for supper and remained till the thing was all over."

"When your wife went out with the dogs you had the same facilities for hearing her scream as you did those other screams, didn't you?"

"Yes."

"Didn't you hear your wife talking before she screamed?"

"I did not."

COMPANIES OFFER COMPROMISE.

Government May Try to Collect $1,000,000 from Oleomargerine Men.

WASHINGTON, Feb. 6.—The government may attempt to enforce the collection of $1,000,000 from oleomargerine manufacturers who used colored cottonseed oil under the ban of the Treasury Department. Commissioner Cabell of the internal revenue bureau informed the House committee today that the Treasury would take no action toward a compromise until the compromise until the committee and the federal court at Chicago has concluded their investigations.

The commissioner estimates that taxes amounting to $1,2000,000 were evaded by manufacturers who used oil colred with sulphur The companies have offered $102,000 as compromise.

STEAMER REPORTED.

SABLE ISLAND, Nova Scotia, Feb. 6.—Arabic from Liverpool for Boston, 640 miles east of Boston lightship at 10 p. m. Feb. 5.

FINANCIAL.

NEW YORK, Feb. 6, Wall Street—The market opened with Amalgamated Copper 71½, Atchison, Topeka & Santa Fe 103⅝, Canadian Pacific 237¾, Great Northern preferred 128, Interborough Metropolitan 18⅝, Interborough Metropolitan preferred 62, New York Central 108, Pennsylvania 119, Reading 164½, Southern Pacific 104, Union Pacific 160, United States Steel 83⅞.

10—There was further selling of the Copper stocks when the market opened today. The Harriman shares were the only active issues to make gains, but losses were small. Amalgamated, which was sold in some large blocks, held within a fraction of yesterday's close.

11—Bidding up of the Trans-continentals helped to strengthen the specialties and there was a pretty general recovery of the initial losses. Canadian Pacific and Northern Pacific were firm. Weakness was shown again in specials at 11 o'clock.

Noon—Compared with recent averages the volume of business fell off nearly 50 per cent in the forenoon. Trading was of a highly professional character. Interest in the market lagged and brokers gave almost as much attention to the action of the exchange governors to prevent "wash" sales as to the market itself, which was neglected much of the time. Continued weakness of copper metal abroad and sales of copper shares for the account of foreign interest brought about lower prices for the group, but the effect on the general list was slight. Reports of good earnings by some of the northwestern roads furnished a back log for the standard stocks. Bonds were irregular. Money on call, steady, at 2⅜ per cent; prime mercantile paper, 4½ to 5; exchanges, $315,749,393; balances, $14,-509,337.

OFFICERS ELECTED.

Rogers High School Lyceum Holds Lively Open-For-All Debate.

The first regular meeting of the recently formed Rogers High School Lyceum was held Wednesday evening at the school, with a representative attendance of boys from the four classes. Mr. F. W. Johnstone, of the commercial department, who directs the affairs of the Lyceum, was in charge. Officers for the remainder of the year were elected and a lively open-for-all debate was held.

The meeting was called to order by the temporary chairman, J. S. Brown, Jr., and the following officers were elected:

President—John M. Hoar.
Vice President—J. S. Brown, Jr.
Secretary and Treasurer—Ivan S. Coggeshall.

Entertainment Committee—Stanley A. Ward, chairman; Henry S. Wheeler, Thomas H. Wyllie.

Mr. Johnstone spoke of the reasons for organizing the society. He said it is for the development of debating ability and to make the boys proficient in parliamentary law and practice. In the matter of parliamentary law it has been demonstrated that the other societies at the school have been very deficient; they have been conspicuous by the absence of parliamentary practice at the meetings.

The question, "Should the Panama canal be fortified?" was the subject for the open debate, and in the arguments, although extemporaneous, many excellent points were brought out, both for and against. At times the debaters came near personalities, and on one question, regarding the proximity of the locks to the coast, the president called a recess that the members might consult the big relief map in another part of the building.

When the arguments, which lasted more than an hour, were over, a vote was taken and the affirmative side, that the canal should be fortified, was judged the winner. Several who did not argue and voted for the affirmative said their opinions had been formed by the points brought out, and several also said the same for the negative.

Among those who spoke, on one side or the other, were S. A. Ward, Samuel M. Cottrell, H. S. Wheeler, J. Lincoln Turner, T. H. Wyllie, E. E. Jemail, J. S. Brown, Jr., Harold Knobelsdorff, Walter Clarke. President Hoar, who was relieved of the chair by Vice President Brown; I. S. Coggeshall, James H. Williamson and Samuel Frant.

The entertainment committee met after the Lyceum had adjourned and arranged for the programs for the meetings before the Easter vacation. It was decided not to have a public debate until after Easter. It is probable that the question taken up Wednesday evening may be given to two teams, and be the subject of a regular debate.

"THE DEVIL'S DISCIPLE."

Shaw's Clever Play to be Given At the Unity Club.

The next entertainment of the Unity Club, which will take place Tuesday evening, will be in charge of the helpfulness committee, of which Mrs. Newton Adams is chairman. As is usual for this evening, members are obliged to pay admission and the public at large has an opportunity to see what these dramatic readings, which have become celebrated, are like. The proceeds are for the children of the Newport Hospital.

A clever play has been chosen for the reading, Bernard Shaw's "The Devil's Disciple," and the cast which follows is of recognized ability:

General Burgoyne, Dr. A. F. Squire
Major Swindon, Mr. A. O'D. Taylor
Mrs. Dudgeon,
Richard Dudgeon, her son, ("The Devil's Disciple"),
Mr. Newton Adams
Christy Dudgeon, his brother,
Mr. L. W. Crandall
Rev. William Anderson,
Mr. Joseph S. Milne
Judith Anderson, his wife,
Mrs. J. Powell Cozzens
Essie Dudgeon, Miss McCarthy
Sergeant, Mr. Reuben W. Peckham

Some of the minor parts have not yet been assigned.

HAVE SOME WORK TO DO.

Ashmen Find 37 Barrels in a Short Space.

Some of the ashes collectors look like automobile drivers; not that they wear fur coats, but because they wear goggles to keep the ashes out of their eyes. That these men have some work to do was apparent to persons who saw the collection of ash barrels, all full, near the Sherman building on Thames street Wednesday morning. In one group 22 were counted, while close by were groups of six, three and six—37 ash barrels, all well loaded, within a few running feet of curb. That took some cart capacity to remove.

One improvement is noted. Hogsheads and big square packing boxes were absent. The men can handle barrels, but those big boxes and hogsheads needed a steam-hoisting gear to dump them in the carts.

The average man isn't nearly so fond of his wife as he is of his wife's husband.—[Philadelphia Record.

OUT FOR THE ARCTIC'S TRADE.

Cold Storage Company Going Generally into Houses and Stores.

Recent Change in Management and the Concern on Good Financial Footing.

From appearances on the streets and reports heard about the city it looks as though the Newport Fisheries, Ice & Cold Storage Company was reaching out for, and securing, the trade formerly held by the Arctic Ice Company. The Cold Storage Company has been in the ice business some years, but much of its trade has been with the fishermen. Now it is going generally into stores and houses, and at the present rate of progress bids fair to be the ice company of Newport next summer. The company has cut ice here, has sent to Maine for it, and has always been able to secure ice whether it cut it or not. If it should secure possession of the Lily pond and Green End pond houses, heretofore controlled by the Arctic company, it would have the local sources of supply, if the water should freeze. Any way, it could procure ice if there is any ice in Maine, and generally there is.

A change has recently been made in the company's management. The Atlantic Trapping Company, Messrs. Anderton & Hayes, has secured enough stock to control the working of the concern and has been going into the business with the same earnestness and attention to details which made its fishing a success, even though older fishermen said they could make nothing but a failure of it. They were not tied down too much by old rules but branched out and showed the old-timers that youngsters could do things, even if they differed from the old-fashioned ideas. The scheme was to attend to business and keep awake and hustling.

Apparently they intend to apply the same ideas to the management of the local cold storage concern. There seems to be no good reason why this should not be a paying proposition. Others have paid well, this apparently ought to more than meet expenses, and probably with two active young men pushing its interests it will be made to pay.

The company has recently voted to issue $40,000 worth of bonds and has given a mortgage on the plant, fishing boats and tackle to the Gloucester Safe Deposit Company, to guarantee the bond issue. Some of those interested in the company say these bonds look pretty good to them and talk of taking quite a number of them as investments.

With the money thus raised it is proposed to put the company on a better financial footing. It was supposed, when Magnus J. Paulson bought the property in 1911, that he would supply the money needed in developing the business, but it was not forthcoming. This bond issue is expected to give the necessary financial footing for a more pushing administration of the business, and the new managers are men who are not afraid to hustle to make it a success.

FOR PERRY CELEBRATION.

Text of the Resolution for a State Appropriation of $15,000.

The following is the text of the resolution introduced in the senate Wednesday for an appropriation of $15,000 for a proper representation of the state of Rhode Island at the Perrys Victory centennial celebration next September:

Whereas, On September 10, 1813, one of the greatest naval victories of history was won in the Battle of Lake Erie, a victory of which President Madison says in his message to Congress on December 7, 1813 "On Lake Erie the squadron under command of Captain Perry, having met the British squadron of superior force, a sanguinary contest resulted in the capture of the whole. The conduct of that officer, adroit as it was daring, and which was so well seconded by his comrades, justly entitles them to the admiration and gratitude of their country and will fill an early page in its naval annals with a victory never surpassed in lustre;" and

Whereas, Oliver Hazard Perry, a native and citizen of Rhode Island, built, equipped, manned and commanded the victorious American fleet on that occasion; and

Whereas, Fifty-one of the 54 guns in the victorious American squadron were commanded by Rhode Islanders; Perry, Turner, Champlin, Brownell and Almy, all Rhode Islanders, commanded vessels; Breese, Dunham, Taylor and young Alexander Perry were officers of the fleet; and Dr Usher Parsons, long a leading surgeon of the city of Providence, was the fleet surgeon; and

Whereas, One hundred and fifty men of the 400 composing the American forces on that occasion were citizens of Rhode Island; and

Whereas, The one hundredth anniversary of this great victory, which occurs on September 10 next, will be commemorated by a celebration in which the President of the United States, the governors and authorities of many of the states of the Union, and representatives of other governments, will participate; at which time will be dedicated the monument erected, in commemoration of this great victory, by the United States and by nine of the states of the Union, on Put-in-Bay island in Lake Erie; and

Whereas, Rhode Island having contributed so largely to this great victory, it is fitting that this state shall take a prominent part in this commemoration; now therefore be it

Resolved, That the sum of $15,000, or so much thereof as may be necessary, be and the same hereby is appropriated out of any money in the treasury not otherwise appropriated, to defray the expenses of civil and military representation for the state of Rhode Island in the Perry's Victory centennial celebration, and the state auditor is hereby authorized to draw his orders on the general treasurer for the payment of such sums as may be necessary from time to time, upon the receipt of vouchers approved by the governor an authorized by the Perry's Victory Centennial Commission of Rhode Island, appointed by the governor by authority of a resolution passed at the January session, A. D., 1910.

CARING FOR THE NEEDY.

Reports of Societies Affiliated With the Charity Organization.

In connection with the recent meeting of the Charity Organization Society the annual reports of the Townsend Aid for the Aged, the King's Daughters, the Society of St. Vincent de Paul and the Home for Friendless Children, affiliated societies, were presented. These outline the work of these organizations for the year and are as follows:

Townsend Aid for the Aged.

The society, the Townsend Aid for the Aged, reports from July 27, 1911, to July 25, 1912, as follows: Ten deaths, two men and eight women. One woman was 97 years, one man was 93¾ years. Other ages reported were 68, 70, 72, 76, 78, 79, 84. At the close of the April meeting, 1912, 24 names were on the waiting list.

While keeping the regular benefit list at 100 persons, the income the past year admitted of a small advance for each beneficiary and a few donations for extreme cases of severe illness and need.

In looking over the records for 17 years by the present secretary, she finds 16 persons were from 90 to 99 years and nearly four months; while 36 were from 80 to 90 years old. It would seem as though Mr. Townsend's money had given the help he desired "to those who had seen better days."

Harriet L. Crandall,
Secretary.

Society of St. Vincent de Paul.

Miss Harriet E. Thomas, Secretary Charity Organization Society, Newport, R. I.

Dear Miss Thomas: Answering your card to Rev. Father Meenan, I have the pleasure to state the expenditures by the society of St. Vincent de Paul during the year, as follows:

Cash	$344.39
Fuel	35.76
Shoes and clothing	88.43
Rent	60.00
Groceries, etc.,	720.03
	$1,245.60

making a total expenditure during the year 1912 of $1,245.60.

W. J. McCormick,
Secretary.

Home for Friendless Children.

At the annual meeting which was held in May there were 28 children in the Home, there having been 22 new admissions, 10 re-admissions and 22 dismissions. The life of the Home has gone on about as usual, and the health of the children has been good with the exception of a number of mild cases of diphtheria which were treated at the Newport Hospital.

Mrs. Felix Peckham was chosen first directress in place of Mrs. Joseph Bradford, who had died during the year.

The Home has received a legacy of $1,000 from the estate of Miss Caroline Newton of Wickford, R. I., in memory of her sister.

S. T. Hammett,
Secretary.

King's Daughters for Newport County

There are eight circles of King's Daughters in Newport county, and three junior circles. There are 130 active and 30 honorary members. These organizations provide groceries, fuel and money for rent for the needy; and flowers, fruit and delicacies for the sick. Dinners at Thanksgiving and Christmas are sent, as well as Easter offerings distributed. Children have been supplied with warm clothing and fresh milk, and calls have been made on old people. Sewing has been done at the meetings for the Fresh Air Fund and poor children. Reading matter has been collected and distributed. During the year about $820 has been raised by the circles and $630 expended. The money is raised by sales of fancy articles, rummage sales and personal contributions.

Harriet F. Riggs,
County Secretary.

PORTSMOUTH.

Death of Mrs. Ella J. Fish—Funeral of George B. Coggeshall.

[Regular correspondence of The News.]

Mrs. Ella J. Fish, who has been seriously ill for the past three months, riously ill for the past three months, noon at 4 o'clock. In November she went to the home of her daughter, Mrs. Harry Dale of this town, to spend a few days, and while there was taken so ill as to necessitate the services of a physican. Instead of growing better she became worse, and after some weeks, in order to have the absolute quiet which her physican thought she required, she was taken to the home of her daughter-in-law, Mrs. James H. Fish. After a time the services of a trained nurse were required and during the past week she seemed to have improved, being able to sit up for a time, occasionally. Wednesday morning, she was worse, and soon after sustaining a slight shock in the afternoon she passed away.

She was a native of Maine and came here to live at the time of her marriage, between 30 and 40 years ago. Her son, Captain James H. Fish, died a few years ago, while comparatively a young man, leaving a little daughter. Her own daughter (Maud), Mrs. Harry Dale, having four daughters, survives her. She leaves also one sister, (Jeannette), Mrs. Sewall Maddocks, and three brothers—Frederick, Charles and Marston Blake, all of Maine. Mrs. Coomer A. Easterbrooks of Newport is a sister-in-law.

The funeral of George B. Coggeshall took place from his home on the west Main road Wednesday afternoon. Rev. Albert Loucks, pastor of the Christian Church, where Mr. Coggeshall was a regular attendant for many years, read Scripture selections, offered prayer and preached a short sermon, taking for his text II Timothy, IV:6. Relatives and friends from Boston, Providence, Newport and Portsmouth were present. There were no bearers. The burial was private, in the family lot in the Union cemetery.

Services were held in St. Paul's Church on Ash Wednesday at 11 o'clock, at which there was a fair attendance.

Mrs. H. Frank Anthony, Mrs. Theodore S. Lawton and Mrs. Walsh spent Wednesday in Boston.

Books have been loaned from the Public Library during the month of January as follows: History 6, biography 3, geography and travels 23, science and art 12, poetry and drama 11, literature and language 9, miscellaneous 1, fiction 333, total 398.

Mr. George White is better.

The thermometer registered 16 above zero in Newtown village at 6 o'clock this morning.

Watching out whether Mr. Bryan buys a round-trip ticket to the inaugural from his Florida home may give us a line on the real status of the case.—[Troy Stadnard-Press.

REAL SON OF THE REVOLUTION.

One of First Chosen to Place de Terney Wreath in Trinity Churchyard.

George Washington Church, on Law and Order Side in Dorr War, Dead in Little Compton.

George Washington Church, the second oldest resident of Little Compton, who, had he lived until April, would have been 97 years of age, and who was a real son of the American Revolution, died in that town Tuesday. He had been very well until last Sunday. His death was due to old age.

Orrin W. Simmons, the oldest resident of Little Compton, is now in his ninety-eighth year.

Mr. Church was a member of the Rhode Island Society, Sons of the Revolution, and one of the first delegated by the society to place a wreath on the grave of Admiral De Terney in Trinity churchyard. For several years on Decoration day he came from Little Compton to perform this duty for the society.

Though the son of a man who was a soldier in the Revolutionary army, Mr. Church's only connection with things martial was as member of the "Law and Order" forces in the Dorr war. Born four years after the second war with England, he was 45 years of age when the Civil war broke out, and 53 when the conflict with Spain took place.

He traced his ancestry in a straight line from Joseph Church, brother of Benjamin Church, the Indian fighter, and Richard Church, their father, who joined the colony at Plymouth in 1623. After King Philip's war, in which Captain Ben Church performed prodigies of skill, valor and hardihood, the two brothers went to Little Compton, then without dispute even by the Rhode Islanders a part of Plymouth colony, and drew lots for the assignment of homesteads. The Indian fighter selected a section running from the water back through the estate now occupied by Roswell B. Burchard, and his brother, Joseph, settled on an allotment beside him.

This land passed, little by little, from the Church family, until today there remains in the hands of the descendant of Benjamin Church only a fraction of the original homestead, while Joseph Church's descendants have settled on farms of their own choosing, and would probably experience difficulty in telling just where the original Church homestead in Little Compton lay.

The grandfather of George W. Church was William, who in the second year of the Revolution was drafted for service with the American troops. That there was need of an additional force just then the old colonist did not question, but evidently his first duty as he saw it was to his family at home. For that reason he sent his son, Gideon, who, having been born February 21, 1761, was only 17, when the battle of Rhode Island was fought.

It was just after the battle, and probably while the Americans were camped on the heights of Tiverton that he reported for duty. About a week later he was back home again. Why his term of service was so short the son never knew, but probably his youth had much to do with his speedy withdrawal from the ranks. At any rate, when he was mustered in the pressing need of recruits had passed; the Sullivan expedition had failed, and the scenes had been shifted in the great theatre of war.

George W. Church was the offspring of Gideon Church's second wife. The first was Sarah Ellis, whom Gideon married in 1795. She died in 1813, and Gideon Church, a year or two later, at the age of about 44, married Hannah Gifford, a member of an old Rhode Island Quaker family, who in 1816 gave birth to a son.

During most of his long life Mr. Church lived in Little Compton. His father for many years ran a grist mill near the village. When he was approaching manhood the son concluded that better opportunities were offered through the acquisition of a trade than through the management of a country mill, so he went to Providence and served an apprenticeship as a carpenter with John Church.

After he had become master of his trade, his employer entered into a contract to build a house at Little Compton, and Mr. Church went thither with him. He liked the old home town well enough to remain there, and added a new tie binding him to the place by his marriage in 1841, with Eliza Taylor Simmons. After this he came into possession of a few acres of land on Taylor's lane, near the Seaconnet river, built a home and spent 48 years of married life there. Three children were born to him, all of whom are dead.

Mr. Church had been married only a year when what was perhaps the most exciting experience of his life—participation in the Dorr war—came to him. In this significant but bloodless struggle, he was on the "Law and Order" side, as it was called. After peace had been declared he returned to his home and bride, and settled down to a peaceful, uneventful life.

Mr. Church had been a member of the Little Compton Congregational church for more than 60 years, and a deacon for a long period.

REAL ESTATE SALES.

William Buehler to Frederick J. Buenzle, two lots, the first bounded west, 60 feet, on a proposed Washington street extension; north, 80 feet, by land of the Swinburne and Smith heirs; east, 60 feet, on land of Amalia Buenzle and south, 80 feet, on Sycamore street. (quitclaim), the estate bounded north on Dearborn street, east on Spring street, south on Holland street and land of Brytez, Keating and Fitch, and west by land of Brytez and M. A. McCormick.

Mrs. Mary A. Galvin, Mary C. and Annie Galvin and Julia R. G. Lawlor to William J. Galvin (quitclaim), the estate bounded north on Harrison avenue, east on land of O. L. Henricks and wife, south by land of J. Stacy Brown and west by land of A. T. Anthony.

James Andrews Swan to Roderick Terry, the estate bounded north, 200 feet, on Buena Vista street; west, 200 feet, by Gibbs avenue; south, 200 feet, by the estate of Theodore K. Gibbs and east, 350 feet, by land of Virginia B. Gibbs. This estate was conveyed to the grantor by Mary H. Cooke by deed dated January 15, 1902.

VICTORY IMPOSSIBLE.

Rogers Juniors Again Defeated—Training Station Basket Ball.

Although they tried their hardest, Wednesday afternoon, the Juniors, in the Rogers High School class basket ball series, were unable to win their fourth game, losing it as they have the other three played. They were defeated by the Junior Middles, 34 to 13, and through the victory the winners put themselves in the lead again. Even though it was after examinations, there were few changes in the line-up. As usual, the Junior Middles displayed excellent form and their team work could hardly have been better. The Juniors, made up of less experienced players worked hard, but found victory impossible.

The play was less rough than in most of the class games, and was fast. A number of excellent goals were shot, but the older players had their shooting eyes more than the Juniors. At the beginning of the second half the latter took a spurt and nearly tied the Junior Middles, but the winners soon piled up their score far ahead of the losers. The line-up and summary:

Junior Middles.		Juniors.
Fletcher, l. f.	r. g.,	Intaglio,
Fraser, Westerdahl, r. f.	l. g.,	Edward Sullivan, c.
c.,	Chase	
Pinto, l. g.	r. f.,	Kelley
Diggles, r. g.	l. f.,	Martin

Goals from floor—Diggles 6, Fletcher 5, Sullivan 4, Fraser, Westerdahl; Intaglia, Martin, Chase, Kelley, Edward. Goals from fouls—Martin, Edward. Referee—Chase. Timer—Knox. Time—Fifteen-minute halves.

At the Training Station the Reading team was defeated by the five representing the Station, 40 to 17, in a game which was closer than the score indicates. Donovan for the Station, and Casey for the Readings did the best work.

WIN THE MOST STRINGS.

Armours, Moose Team No. 3 and Canaries Best Rollers.

In the Clerk's bowling tournament Wednesday evening the Armours won two of three strings from the Broadways. Goss made the high single, 107, and Kirby the high total, 297, the latter including a single of 105. Tripp made 102. The scores are as follows:

Armours.				
Goss	107	79	94	280
Rochford	86	85	92	263
Fitzgerald	90	92	96	278
Roach	94	86	86	266
Kirby	105	95	97	297
	482	437	465	1384
Broadways.				
Barker	77	82	86	245
Sweet	94	96	95	283
Donohue	90	92	96	278
Tripp	95	102	85	282
Boudreau	98	74	76	248
	454	446	438	1338

Team No. 3, in the Moose tournament, won three straight from No. 6, by margins of 31, 6 and 30 pins respectively. The scores:

Team No. 3.				
Ross	82	76	77	235
Johnson	80	76	75	231
Card	83	83	82	248
Sherman	88	82	91	261
Taylor	85	85	85	255
	418	402	410	1230
Team No. 6.				
Kenney	70	71	69	210
Stepp	88	83	74	241
Gates	58	73	68	199
Smith	85	85	85	255
Sargent	86	85	84	255
	387	396	380	1163

The Canaries won from the D. and S. team by a margin of 64 in the total pinfall. Kydd of the losers made the high single of 111, and the high total, 267. The scores follow:

Canaries.				
Reynolds	83	97	86	266
Nickerson	70	78	83	231
Clarke	83	82	76	241
Quinlan	80	81	99	260
Brown	72	80	79	235
	394	418	411	1223
D. and S. Team.				
Kydd	111	76	80	267
E. Darling	80	78	83	241
T. Darling	49	63	68	180
McGaskell	72	76	67	215
Horrocks	98	82	76	256
	410	375	374	1159

AT THE RED CROSS ART EXHIBIT

The third afternoon of the exhibit of the Art Association, for the benefit of the Balkan Red Cross relief fund, attracted a large attendance, but unfortunately the dancing by a number of Greek girls did not take place. Mr. A. B. Cascumbas, who had promised this attraction, was unable to complete the arrangements. Mrs. R. C. Darby, assisted by Mrs. Frank M. Greenlaw, poured tea.

It was decided to continue the exhibition this afternoon especially for school children.

Four additional pictures have been sold, the work of Messrs. Charles Bissel, John Elliott, W. Alden Brown and H. Cyrus Farnum.
